SIMMENTAL

16th Annual Bull & Female Sale

Wednesday, February 23, 2022 at 1:00 p.m. CST
Crossroad Farms Sale Barn, Shell Lake, SK

WELCOME from Crossroad Farms

Welcome to our 16th Annual Bull and Female Sale. Our family is looking forward to this sale more than any other we've had over the years. 2021 was a year of worry, trauma, love, laughter, and hope for our family. We understand the feeling of covid burn-out but life really gets put into perspective when the real big "C" hits your family. After some intense treatments and 2 major surgeries in the first half of 2021 Jody is now recovering and cancer free and back working and managing the farm full time.

Over the past 18 months we learned the true meaning of "family farm". After Jody's diagnosis, as a family we had to really band together to make the farm continue to run as well as we expect it to. Jody never stopped managing the farm even through the tough days. Gerald and Grandma Dynamite (Laurie) worked tirelessly to pick up some of Jody's work load on top of their own and keep things running smoothly each day. Jackie continued with the financial side of the business and focused on Jody's health, making sure to monitor his kijiji and auction buying in all his spare time. The 4 kids dropped the schoolbooks and picked up the chop pails and pitch forks. They became an essential part of the day to day operations of Crossroad Farms and we couldn't be prouder of their pride and work ethic. Some kids could have been overwhelmed with the situation and the work load but these kids only learned how to step up and never complain. They now know for sure they want to be integral parts of Crossroad Farms when they finish their post secondary schooling. I guess we must be doing something right as parents and grandparents.

We cannot give all of our Crossroad employees enough credit. We never would have made it through the last year without their dedication, helping hands and willingness to do all the extras. To all our daytime staff; Dave Caswell, Claude Turgeon and Kirk Gerich – thank you for being a part of our family, making work fun and taking pride in Crossroad Farms. And to Ian Wasden for doing night calving. His knowledge of cattle and our herd enables Jody to get much needed rest to stay healthy.

As always we put our heart and soul into our herd. This years offering is another strong set of bulls. There is some very impressive individuals in all 3 sectors of the catalogue this year. Uniformity is as strong as it has ever been without question. Whether you select one from the top of the order or the bottom, they are all very complete and check all the boxes. We put 100% effort into trying to raise superior product that will go onto make your herd better. There is nothing better than hearing how good a customers steers weighed or how nice the udders are on the heifers.

We have never been more proud to be farmers as we have been over the last 2 years. In a time where things are uncertain we still have our jobs, our livelihoods and each other. When you are in need your farming friends near and far are there before you even ask for help. Everyday on the farm there is something to be excited about – a new baby calf, the first sprout of the current crop, harvest, a rain, farm talk with the neighbours and just the beautiful views out of our windows overlooking the land that gives us so much. Farming definitely has its ups and downs and some years are harder than others but that struggle and the successes we all have is what makes this all so worth it. We are a culture of resilience and hard work that is dedicated to feeding the world! How amazing is that!!

If you are unable to attend the sale call Jody or Gerald and they can assist you or contact any of the capable sales staff to bid on your behalf. Online bidding will also be able through dvauction.com or dlms.ca. Videos will be posted on crossroadfarms.ca, dvauction, Bohrson and First Class websites in early February. Give us a call anytime prior to sale day and feel free to stop by the farm to view the bulls.

We are looking so forward to many visits with new and old customers prior to the sale and seeing a full barn on sale day. Come and enjoy a home cooked meal and some Crossroad hospitality.

Here is a solid red power bull that is extremely hard to fault and definitely deserves to be in the Lot 1 position in the catalogue. Sired by MRL Sysco who has left us with some extremely good sons and daughters of which six are in the sale this year. He was mothered by a Crossroad Slapshot dam who is one of the most powerful cows we own. She has raised sons for Crystal Springs and Mixburn Colonies. She has good fertility always calved in January and will

be one of the first to calve again this year, we are sure hoping for a heifer. She belongs to the Ursula cow family that is full of undeniable qualities and you will see her name weaved through many of our pedigrees. Snapshot is an incredibly good bull and one of the family favourites. He has shown admirable qualities since birth with his excellent body type exhibiting thickness throughout. He is a very complete bull that would move your program into the future. This early maturing bull full of such maternal strengths is not so easy to find and we will definitely be putting some of these genetics back into the herd. Snapshot will be a real contender on sale day and certainly deserves serious consideration.

With the dry conditions that many of us experienced the August culling was harsh and the old Ursula cow went on the truck too. She put everything she had into her last calf and he is a good one! Sumatra is a stout bull with a big butt, lots of natural muscle and large testicles. They say you need to have a good factory to raise good bulls and Ursula has definitely proven herself. Her sons

have been high sellers at previous sales and daughters are some of our most trusted producers. The dam of Lot 1 is an Ursula daughter. Sumatra has lots of power not only from the Sysco side of his genetics but also a maternal package that meets the highest standards. Buy with confidence, here is a bull that will add value to your calf crop.

These next three lots are all transplant brothers out of Crossroad Connected and our powerhouse donor cow Anna-Rae. We have three red and five black bulls out of this flush that we are pleased to offer you. They are all genetically identical however it depends how good their recipient mother feeds them for those first months of their life. Milk makes the difference, and so does

BW

Colorado is another stylish Connected son with a blaze face and adequate thickness throughout. His donor dam Anna-Rae is an excellent uddered solid black power cow. We have decided to share one of her daughters that is a full sibling to these brothers in our heifer section this year and the rest will be retained in the herd. They will make tremendous females. We

think Colorado will be an outstanding breeding bull and play a big part of the future of your program.

This LFE Amber Jack son was born a 76 pound twin and was mothered by a powerhouse dam with one of those excellent Kill Switch udders. Her last year's awesome American Red son was purchased by Ultra Livestock & Hay Valley for \$20,000. She is bred to American Red again this year and we are sure hoping for a daughter. This fella is super stylish with adequate muscling with

huge testicles and great colour. He is also loaded with maternal traits making him a total package. Here is Jack Flash ready to go to work, he could very well be your next great herd bull.

*Homo Polled ~ Hetero Black*

Here is a special one. He is the first bull our youngest granddaughter Jaici gets to sell. This past year has been a challenge for our family, the farm was like a bee hive, there were pony tails and pitch forks, tall kids and short kids, chop pails and hay bales, barns to bed, calves to tag, wearing out Carhartt's trying to keep the farm going while Jody was on the mend. All four grandkids were given a choice to purchase an embryo to put into

their cows and Black Calloway was raised by Jaici's commercial cow. He is a good thick bull that had a lot of substance from an early age. He looks very stylish with the white on his face and has a real thick hair coat and a good disposition too. He exhibits tremendous shape and volume throughout and is a definite stand-out in the pen. Black Calloway is an excellent choice if you are looking to raise some fancy calves full of maternal values and added extra weaning weight. Talk to our chore girl Jaici, she will tell you how good he is!

and Rusylvia Cattle Co. for \$22,000. After much study our granddaughter Shelby purchased her daughter from Rus/Gold as a bred heifer carrying Black Asteroid. At 15 years old and wanting to grow her herd she confidently tapped into her university savings and wrote that big cheque knowing there are generations of highly proven productive females in her heifer's pedigree and her purchase would yield quality year after year. Shelby's cow fed her calf very well and is bred back for mid-January. Black Asteroid is an above average find and we feel deserves serious consideration.

The other grand-kids all agreed with Cooper that this was the perfect name when they saw this bull's face. I don't think you could find a harder working twelve year old than our Cooper, dependable chore man and in his spare time he researches bull sale catalogues, so when grandmas mind fails her she knows who to ask. At thirteen all the kids got to pick a purebred heifer

and this year Cooper finally gets to join his sisters and start his herd. Black Star was born to a first calving Hot Spot heifer that has a super good disposition and is from a strong cow family, she will be calving again in early January. Here is a pretty good bull, structured well, has good depth of body and excellent rear quarter and naturally quiet for ease of handling. Lots of good qualities to admire, he will mature into a very impressive herd bull.

Terms & Conditions

TERMS – The terms of the sale are cash or cheque payable at par at sale location unless satisfactory credit arrangements have been made prior to the sale. The right of property shall not pass until after settlement is made. Crossroad Farms reserves the right to require a certified cheque as settlement before releasing any sale cattle. Should the purchaser fail to settle for his purchase Crossroad Farms reserve full power to resell the animal to the best advantage either publicly or privately, without further notice. Any loss arising from such resale together with keep and all other expenses shall be payable by the defaulter. All settlements must be made with the clerks of the sale before any cattle will be released. Crossroad Farms and sales staff has the right to refuse bids from anyone who has a previous record of default in payment and who has not made prior credit arrangements, prior to the sale with Crossroad Farms.

BID – Every animal consigned to the sale must be sold by auction. No by bidding will be permitted. Each animal will be sold to the highest bidder.

DISPUTES – In case of disputes, bidding will be reopened between the parties involved. If no further bid is made the buyer will be the person from whom the auctioneer accepted the last bid. The auctioneer's decision in such matters will be final.

PURCHASER'S RISK – Each animal becomes the risk of the purchaser as soon as sold.

ANNOUNCEMENTS from the auction block will take precedence over printed matter in the catalogue. Buyers are therefore cautioned to pay attention to any such announcements.

CERTIFICATE OF REGISTRY – The proper Registration or Recordation paper, as the case may be, will be duly transferred and furnished to the buyer for each animal after the settlement has been made.

SHIPPING – Assistance will be given in making shipment after the sale but no risk is assumed by the Seller. Purchasers are requested to furnish shipping instructions when making settlement.

GUARANTEE – All animals will carry standard breeding guarantee as specified by the Canadian Simmental Association. At no time shall the seller's liability exceed the purchased price of the animal.

EXCEPTION TO GUARANTEE – In cases where the animal is subjected to any hormonal or surgical reproduction techniques after the sale, the guarantee shall be null and void. In the cases of bulls, they are guaranteed to breed naturally according to the Canadian Simmental Association Guarantee but no guarantee is given that semen from any bull will freeze.

HEALTH – All animals will have passed the required tests as determined by Agriculture Canada at sale location. It is the buyer's responsibility to determine health requirements for importing any animal into his province or state.

ACCIDENTS – Although every precaution will be taken to protect the safety and comfort of buyers, neither Crossroad Farms or any Sales Staff or Association assumes any responsibility in this matter and disclaims any liability legal or otherwise in the event of accident or loss of property.

RIGHTS AND OBLIGATIONS – The above terms and conditions of the sale shall constitute a contract between the buyer and the seller and be equally binding to both. Resale of animals following purchase in this sale shall constitute a separate transaction and the rights and obligations of the two parties connected thereto are not covered by the terms and conditions of this sale.

PICTURES – By attending our sale you are giving your consent for your picture to be taken and used for promotional or advertising purposes only of Crossroad Farms. If you wish to not have your picture used please advise us in writing immediately after the sale.

Here is a Full Fleckvieh Outlook son that has a lot to him. He is very long bodied and full of meat and muscle from front to back carrying that big rounded rear quarter that is a typical Spartacus butt. Also he is sporting a good thick hair coat which is sure needed in this minus forty December weather this year! His Spartacus dam is bred back the same way for

We were fortunate to secure a semen package from the polled \$165,000 SBV Reputation and we are very pleased with his calves. We have six Reputation x Zoey transplant sons for you this year that have a lot to offer. This donor dam Zoey will inject her perfect udder and great colour into the genetics of these transplant sons. Here is Leader, a real solid bull with

performance and good muscling throughout. He is very stylish with his double goggles and great colour and will certainly catch your attention when you walk into the pen. Full Fleckvieh and homo polled, Leader is a very impressive bull that deserves some serious consideration.

*Diluter free*

Born a 79 pound twin, just look at her now, eye appealing, just as fancy as they come. Not only do these two heifers come with all the impressive Outlook genetics but their transplant dam is a powerhouse, full of thickness and superb udder quality. She fed both these twins and is bred back to Outlook. She raised a super thick son that was purchased by Crooked Creek

Farms from Big River, Sk.at last year's sale. When we were picturing Gerald asked me ...and why are we selling these heifers? Super strong cow family backing this quality heifer guarantee's a lifetime of good production for her new owners.

Here is a soggy, solid patterned Mr Flash sired daughter with plenty of eye appeal. What a hair coat! We are very pleased with our Mr Flash progeny. He is our calving ease specialist purchased exclusively for the heifer pen and does such an excellent job. Here is Jennifer, 60 pounds at birth, not much to her but she has certainly done some growing since then. Mothered

Here is another low birth weight, easy doing Mr Flash daughter looking pretty fancy with her blaze face and her thick dark coloured hair coat. This one hurts to let go but we know her new owner will be very pleased. Her dam is a good uddered Red Stone heifer and she certainly mothered this calf very well. She is bred to KT Hercules who is one of our new purchases from

This one is a real pet, naturally quiet and such a nice thick hair coat. Her dam has the same quiet disposition, she did an excellent job raising her first calf and is bred back for a January American Red baby. Her Paparazzi granddam was a real powerhouse but had to be culled due to an injury. Her great granddam is our Audrey cow, she is still here and her calf sells as lot #1, so lots of power in this heifer's bloodlines. Jacqueline would certainly make a good addition to any herd.

Here is the last of our four low birth weight Mr Flash heifers we selected for you this year. Jaylynn is solid dark red, thick throughout and very similar in body type to the other Flash daughters. Her young dam is one of the several transplant Vegas/Ruby sisters we have in production and also a full sibling to lots 19, 20 & 21. Bred back to American Red for January, we expect her calf

will also be excellent. Jaylynn is extremely strong maternally with proven performance, some real consistent qualities that should be considered come sale day.

Here is a transplant Vegas x Ruby heifer that is a full sibling to lot 81's dam. I did not capture her qualities very good in this picture, the cold weather was moving in and grandma did not want to do any minus 40 degree retakes. You will just have to come see her sale day! Her dam had produced 27 #1 embryos and we put a few of these embryo's in every year so several of her full brothers

have been sold through our sales in past years. And we also have a nice group of her sisters working in the herd. Here is a heifer that will raise the right kind and pay for herself many times over.

She may be young but is certainly not short on quality. She is out of our R plus Rattler herd bull. We have three of his sons in the sale this year and have sold some high sellers sired by him in past sales. We have several daughters we will be breeding this spring that are looking very promising. Jennings was mothered by a good Anchor T Rusty dam that has raised some good

bulls that have also sold through our annual sales. We are confident this young heifer will mature into a very productive female.

Fancy one here with a ton of thick black hair, full sibling to lots 15,16,17 and lots 35 thru 39. All sired by Crossroad Connected and our excellent uddered Anna-Rae powerhouse donor cow. These nine offspring should give you a pretty good idea of what these genetics are capable of. We have three other full sisters to Jorja-Rae in the replacement heifer pen allowing us to offer this one

to you. Lots of different breeding options that would make her future offspring very interesting! The choice is yours.

You must come and see this heifer. We didn't get many calves off her sire and only have one Middle Man sired bull in the sale this year, but they both have extreme depth of body as do the few we have in the replacement heifer pen. Jezeabelle was mothered by a cow we purchased from Boundary Ranches a few years ago and like her dam has an excellent disposition. I can

think of several ways I would like to breed this solid black stylish Jezeabelle, she is going to be one sweet female when she matures.

You are going to like this one, a real fancy black blaze faced heifer that is moderate framed and has a good disposition. We have a couple good bulls in the sale with the same sire, be sure to check out lots 41 & 42, they also have a lot of potential. This heifer's Bounty Hunter dam raised a good Hot Spot bull calf last year that was injured and never made the sale, she is due to Crossroad

Connected this year which I think will be a perfect mating. Jonita is a real little sweetheart that will make a very nice addition to anyone's herd.

This is the first calf out of a Maxwell heifer we purchased at Checkers a couple years ago. We really like her, she fed her calf well and we have her bred to Madoc for a mid-January calf. Jewel's sire is Scissors Showdown who was purchased exclusively for use in the heifer pen. His calves are born easy and they have some grow to them. Jewel is pear shaped, solid black and just

like her dam and sire has an excellent disposition. A real good combination of genetics with strong maternal traits, she will mature into an excellent producing female.

Journey is a solid black Show-down daughter that has an interesting pedigree. Her dam is one of the Harkers Icon females we have working in the herd and we sure like the type of progeny they produce. She is bred to Connected for a mid-January calf. Journey's granddam has also been a strong producer for us and is also due in mid-January. So a real strong cow family background in this heifer, we are confident she will produce quality progeny for her new owners.

Jingles is our last lot in the catalogue this year, she is just like that last spoon of ice cream left in the bowl, simply the best! She is a pretty little black blaze full of style and eye appeal, another Show-down daughter out of a real fancy State of War dam who is one of the first to calve for 2022. Jingles was born at only 74 pounds but will gain some power from her dam's side of the pedigree and mature into a productive female that you will be proud to own.
