## 12th Annual Bull & Female Sale

**Wednesday, February 21, 2018 at 1:00 p.m. CST**

**Crossroad Farms Sale Barn, Shell Lake, SK**

# WELCOME from Crossroad Farms

We warmly extend an invitation for you to attend our 12th annual bull & female sale. Thank you to all the bidders, buyers and repeat customers from our past sales. Whether you live local or have traveled a long distance, we truly appreciate you taking time to attend and look forward to assisting you with your future bull needs. Feel free to stop by the farm anytime, we are always available. Tell us about your program and we will try to help you make a choice that will work best for you.

Simmental genetics have so much to offer, superior maternal traits and performance to produce heavy weight steers and top end heifers to fill the demand for replacement females. Choosing a herd bull is one of the most important choices a cattleman has to make. A good bull will pay for himself when you sell his first set of calves. A poor bull, and especially if you keep your replacements, will cost you for years. It really pays to buy the best genetics you can.

Our sale offering is strong with a very good selection from calving ease to performance. This year we have some exciting transplant sons on offer sired by Spartacus, Reckless, Stepping Stone and Vision. The Premium, Revelstock, Scout, Spartacus and Bolero sons that were so popular at last year's sale are back and the exciting new Crossroad Subaru, Mr. Westway 32C, TSN Predator and Wheatland Next Up sons will also make their debut for 2018. Several AI sires were also utilized to offer you the very best selection possible. We are also pleased to offer a good representation of our herd in the heifer section allowing you to expand your herd with some interesting genetics and just in time for breeding season.

Competent help is the key to a well-run operation and we would like to say a sincere Thank you to our employees Dave Caswell and Robin Lafond that work side by side with us on a daily basis. Also our family, friends and neighbors, Claude Wasden and crew, all good people we can count on, your efforts are truly appreciated.

If there is a bull you are interested in but are unable to attend the sale, just let us know and we can assist you in bidding or contact anyone of the capable sales staff to bid on your behalf.

We look forward to seeing you on Wednesday February 21st. Come early and enjoy a home cooked meal and some Crossroad hospitality.

**Insurance:** Steen Agencies will be in attendance (306) 887-2020; Cell: (306) 9615525 Each animal becomes the risk of the purchaser as soon as they are sold. ALL BULLS STAYING AT CROSSROAD FARMS UNTIL DELIVERY MUST BE INSURED.

**Catalogue Design:** Cattlepics.com, Patricia Shewchuk (780) 603-3066

**Health:** Crossroad bulls are developed on a TMR ration consisting of cereal silage, chopped hay, super oats and a custom formulated bull supplement. This ration will optimize longevity and ensure proper development from mass and structure to testicle development. All bulls will be vet checked, scrotal measured & semen tested. Bulls are treated with Cylence, Ivermectin, Fermicon7, Pyramid4/Presponse, Maxiguard pinkeye protection & double vaccinated with Fusogard. Sale day weights will be posted.

**"Sight Unseen" Purchase Program:** If you are unable to attend the sale but are interested in our bulls give Gerald or Jody a call, they would be pleased to serve you personally. They will go over the bulls with you and recommend which ones would best suit your program. Bulls are guaranteed to meet your approval when delivered.

**Crossroad Farms 100% Guarantee:** All bulls are guaranteed to be satisfactory breeders in accordance with the Canadian Simmental Assoc.guidelines. Should a problem occur barring physical injury or mismanagement, a bull of equal value will be provided or a credit will be issued towards the purchase of another bull. We always have back-up bulls for our customers and we guarantee you will have a bull to service your cows.

**Delivery:** Free delivery in Alberta, Saskatchewan and Manitoba to central points, we will try our very best to deliver them right to your yard. Cost shared arrangements can be made to other destinations. Delivery date is at the seller's convenience.

**U.S. Buyers:** Exchange rate will be announced on sale day. Crossroads will do the necessary testing for export on bulls and deliver to the border.

**Semen Reserve:** Crossroad Farms reserves the right to collect semen for in herd use only on any bull in our sale. Semen would be collected at Crossroads expense and buyers convenience.

We could barely afford the first two purebred females we purchased in 1995 and soon learned that just because they had papers didn't mean they would produce any better than cows in our commercial herd. We had the purebred bug. We knew this new venture would fit our family well and decided to get serious and explore our options. So we took a loan ... another loan. ... just what we needed! We toured the country, met some wonderful people and seen some great cow herds. We purchased females from proven cow families we had seen in our travels and through embryo transplants from these strong genetics we were able to expand our female base and raise the quality that would "wow" us as we watched them grow. We can attribute some of our early success to our embryo work and many of those good cow families are the foundations we still build on today. Over the years we have continued to expand on cow families through embryo transfers to keep our herd strong. We have fifteen transplant sons from these proven donor cows on offer this year.

**IPU Ms. Code Red 249A**

She has five sons in the sale from three different sires, lots 1, 2, 3 are sired by Spartacus, lot 4 sired by Stepping Stone and her natural calf lot 13 sired by Westcott.

**Brock Umbra**

She has three Spartacus sons in the sale this year, lots 62, 63 & 64,

**Crossroad 106R**

Pictured here at age 13, she has seven sons in the sale from three different sires, lots 5, 47, 48 & 49 are sired by Stepping Stone, lot 10 & 50 sired by Reckless and her natural calf, lot 19 sired by Westcott.

**SBSF MS WARRIOR 53U**

Red Stetson is one of the three impressive Spartacus x Code Red flush mates we are offering in this year's sale. He is an incredibly good bull with structural correctness, impressive thickness throughout, a super hair coat and has a good disposition. Pictured here on November 12th you can certainly see why he is one of the family favourites. We have raised some impressive Spartacus progeny, he puts a "butt" into his calves like none other and we knew we wanted to inject those qualities into our red program. The dam we chose as the donor was our IPU Code Red female we purchased from Barry Labatte for \$18,000 and she is worth every penny. She has received many compliments on her stunning profile and most perfect udder, she is also extremely quiet. Red Stetson has the Crossroad stamp of excellence, we think he has a lot to offer and hope you like him too. Crossroad Farms will be collecting semen on these genetics for in herd use.

Another excellent Spartacus x Code Red transplant son full of natural muscling from an early age. He has a tremendous hair coat, great colour and plenty of style. Pictured here in early November at nine and a half months, he is the youngest of the three brothers and has a similar body type to Red Stetson. He has a very good temperament and excellent testicle development. Four exceptional heifer

calves were also born from this flush and they are most impressive! We think these sisters will be some of the future cornerstones that will contribute to the strengths of our red and black programs. Red Styx has the genetics that could make a difference in your program. He is very popular with visitors checking out the bull pen, we hope you like him too

## 3 CROSSROAD RED SPARKS 59E

BW: 96 lbs. 205 Day adj. Wt: 788 lbs. 365 Day adj. Wt: 1378 lbs.

His dam's first flush gave us twenty seven #1 embryos and she hasn't slowed down since. We implanted more of her embryos this past spring and she is bred again for an early January calf, so good fertility in this bloodline. Her first calf, a Sheriff son, sold in our 2016 sale for \$8,750 to Double S Land & Cattle at Mirror, Ab. Red Sparks is the other full brother to lot's 1 & 2 and has that same tremendous hair coat and style. He has a little larger frame with that same Spartacus muscle and his dam's maternal strengths, fertility and disposition. This is the outcome we were hoping for when we planned this Spartacus x Code Red mating, where you find this much muscle and thickness! We are pleased to offer you these three brothers knowing that any one of them would be an excellent choice for your next herd sire.

Red Stone is a very good bull that will be easy to find on sale day. He is another transplant son out of our IPU Code Red flush cow. Stepping Stone is new to our sire line up this year, he is hetero black and homo polled. We have two red and three black Stepping Stone sons on offer and six daughters that will be retained in the herd and we are very pleased with them all. Red Stone is a long spined bull, has excellent growth on a bigger frame. He is full of natural muscling and has big testicles as you can see by his mid-November picture. He is one of Gerald's favourites, has a really nice head and that "bull look" that always catches your eye when you walk into the pen. He will have a stunning profile when he matures. We think he is one of a kind. Expect some growthy well-muscled calves that will add value to your calf crop. ~Homo Polled~

A massive amount of dark red hair covering this body that is full of volume and style with a very good disposition too. Red Rush is the only red Stepping Stone transplant son out of the Crossroad 106R flush cow that we are offering this year. Stepping Stone is hetero black so we also have three black full brothers to offer as well, lots 47, 48 & 49. Jody's old 106R cow will be thirteen this year and is here for a reason. She has raised some exceptional females that are real producers. She has always calved in January, has flushed well and has seven sons from three different sires in the sale this year. Good growth, high maternal values, fertility and consistency, here is a bull with some real qualities that we think you are going to like.

Here is a moderate birth weight bull out of the calving ease KWA Red Mountain A.I. sire and a broody Bolero heifer that has certainly done a good job raising her first calf. We were hoping we would get a heifer calf from this mating; you can

never have too many Red Mountain females! Red River has good growth with adequate muscling, has a medium brown solid colour pattern and big testicles. Strong maternal strengths on both sides of his pedigree, this bull will be a real herd builder.

Here is an impressive bull, full of natural muscle, depth of body, soundness of structure with good colour and a ton of style. Pictured here in mid-November you can certainly see the potential this LFE Vegas son displays. This moderate framed bull weaned off his Crossroad Bartender dam Sept 3rd at 800 pounds. His dam is also a lower set cow, she has good fertility and is going to calve again in January to Vegas. She has a strong daughter working in the herd and a son was purchased by RCM Cattle Co. at Wrentham, Ab. Lots of maternal strengths in these combined genetics, keep all your Versachi daughters, his calves will be some of your best ever!

We are fortunate to be part of the LFE Vegas syndicate and have access to semen on this high priced herd sire owned by Labatte Simmentals and Oberle Bros. We are very pleased with both his sons and daughters. These Vegas daughters are deep bodied and stylish, our first set will be calving soon and the udder quality looks exceptional. His sons are stout with wide tops on sound structures. Vermont was mothered by a young Esposito dam, she is bred back for a January calf to an outstanding Vegas son we raised. Her first calf was purchased by Leewood Ranch from Mannville, Ab. at the December Source sale in Lloydminster. Vermont has good performance with a ton of middle and good testicle development as you can see in this November 17th picture. Some real consistent qualities here, he will go on to sire an impressive set of calves.

An end of January born bull mothered by a beautiful uddered, young full fleck Reputation female. Vegas sons were very popular at our bull sale last year averaging \$13,300 on five sons. Fellow breeders at Crocus Simmentals had purchased one of those high priced sons that we had the opportunity to see on our fall tour. He bred well and we were both very pleased at how good he looks, he will mature into an impressive herd bull. Vault exhibits the same traits as the other Vegas sons we have in the sale. His daughters will be full of maternal values and produce money making calves for years to come. Great genetics to buy into and an excellent choice for your next herd sire.

We have a strong group of nine Reckless sons on offer this year. Mercury is another embryo transplant son out of the Crossroad 106R cow and a full brother to lot 50 in the sale. Five impressive daughters were also born from this flush, four will remain in the herd and the other extremely strong heifer calf was sold at the December Source female sale to John Beechinor for \$10,250. She had the widest top we have ever seen in a calf! Mercury is a lower set bull; he is very wide over his top and stands on a good structure. He has good testicle development as you can see by his November 17th picture and is also very stylish. Excellent fertility in this bloodline with good consistent qualities, he will sire an impressive set of calves.

Another good, moderate framed Reckless son for you to assess. We purchased his high selling Trademark dam out of the Kop dispersal in Manitoba a few years ago. She raised a good bull going to MC Ranch at Cold Lake, Ab. and last year her Paparazzi daughter was the pick of the herd for Rafter 4T from Hairy Hill, Ab. Mega is a solid coloured bull with a good hair coat and adequate thickness. He is well balanced from head to hooves, free moving and ready to work.

Here is a tremendous Westcott son with incredible length of body on a larger sound frame, pictured here November 15th showing a super hair coat and a ton of style. His sire WFL Westcott was one of the high selling bulls in 2016 at \$165,000 and we are sure glad we were able to secure a semen package. Warrant is also the natural calf of our IPU Code Red flush cow giving him a stacked pedigree with an excellent combination of genetics to buy into. Good performance and loaded with potential, he will mature into an impressive herd bull that will sire a tremendous set of stretchy calves with more pounds at weaning time than you have ever seen before. Outstanding bull!

 CROSSROAD 106R

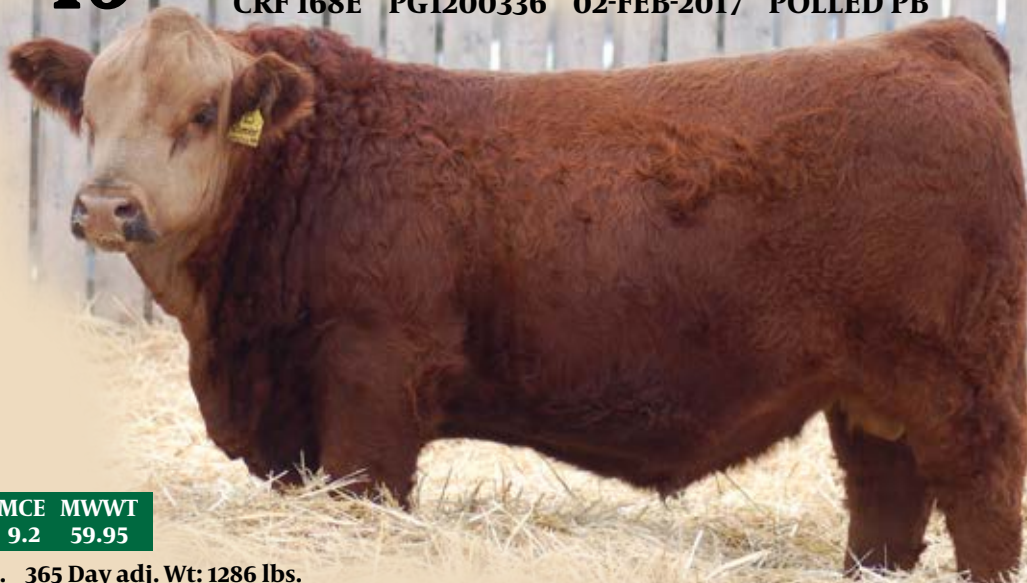

Super length and volume on this solid red stylish Westcott son pictured here in mid-November. He weaned off his Crossroad Slapshot dam in early September at 920 lbs. She has always brought home a good calf; she is a daughter of the Crossroad 106R flush cow and has raised sons for Granum Colony in Alberta and Randy Friesen from Big River, Sk. We also have two of her daughters working in the herd. Good disposition on this guy too, just walked into the pen and laid down while we were picturing. You can expect an above average calf crop from your Whiplash calves and he will build you a new generation of foundation females that will influence your herd long after he is gone. We sure like him and hope you do too.

A solid colour pattern on this thick February born Westcott son. He has plenty of performance, an abundance of hair and a good disposition too. His good uddered R Plus Hard Rock dam has an exceptional daughter in the keeper pen that is due to calve any day. Wheeler will be a dependable bull that will sire a super set of thick calves that will excel in the feedlot. He will also sire some tremendous females that will just keep on producing.

Another Westcott son showing you all his qualities on this mid-November day. He does resemble the six other Westcott sons in the sale, deep sided, full of volume and very stylish. We are very pleased with our Westcott daughters too; they stand with the top in our replacement pen. Westerner's Gunner dam has always calved in January. She has a daughter working for Hay Valley from Calgary, Ab and sons purchased by Alfred Nash from Glaslyn Sk. and Dry Creek Simmentals at Loon Lake, Sk. Good fertility to pass on to his daughters, here is a good stout bull that will add some quality and style to your next calf crop. ~Hetero Polled~

Westward was mothered by our 13 year old elite Rosemary cow, she has raised twelve January born calves, you can't argue with that fertility! She did move on to greener pastures this fall. Her last year's good bull was purchased by M&E Farms from St.Walburg, Sk. and the year before one of our top bulls went to Nelson Family Ranches at Stirling, Ab. Barry Labatte and WJ had purchased her Black Bolt bull in 2014 and the Mader Ranches "Twinkle" cow, who has been a good donor cow for them, is also one of the several good Rosemary calves we have sold. Westward has good colour, adequate thickness, performance and proven genetics that will work. A real sound package here for you to consider. ~Homo Polled~

Born in 2005 this old 106R cow just doesn't quit pumping out the good ones. She also has six other sons in the sale, a bunch of daughters in the replacement pen and a high selling daughter that sold at the 2017 Source. She produces twenty plus embryos on every flush, caught to an early A.I. service so that we could offer her natural January born Westcott son this year. Last year she only had five calves, all LFE Vegas transplants, the two powerful females are retained in the herd and the three sons averaged \$10,500 at our bull sale. Before that she raised eight natural calves, all born in January and she is bred again for a mid-January Wheatland Next-Up calf, I guess she's earned her keep! Her daughters and granddaughters bring home the best every year. Incredible cow family! This bull Workx is solid red, thick haired, has a big butt, is homo polled and should certainly pass on fertility to his progeny. We are confident he will be an above average producer for her new owners.

It said 980 lbs when he stepped on the scale on weaning day. Lots of performance here! We sure like the calves from his Westway 32C sire, unfortunately we lost him after the first breeding season, but are pleased that we have seven of his sons for you to choose from. Degrassi's dam is a beautiful Beef Maker cow that is also the dam of Crossroad Nascar that we co-owned with Doug & Darlene Krepps from Turtleford, Sk. We have sold several good Nascar sons over the last few years and have some strong daughters working in the herd. Degrassi is solid dark red, he is pictured here early but still displays fullness in his flank and rear quarter. He has all the qualities you could want in a herd bull and has a real bull presence look to him. A very good power bull prospect, with no sacrifice on any other traits, we think he will make one heck of a herdsire.

One of the younger bulls in the sale pictured here in November. He is solid red and had good testicle size on Jody's measure day in mid-December. His good uddered Crockett dam was purchased from Skors Simmentals and is due in late January to the impressive MRC Supremacy herd bull we purchased from the Stoughton dispersal last December. We have one of her daughters working in the herd and sons were purchased by Moore Ranch from Loon Lake, Sk. and Green Spruce Simmentals at Duck Lake, Sk. Here is a bull that will cover a lot of cows, you will be glad he is walking in your pastures.

BW: 97 lbs. 205 Day adj. Wt: 841 lbs. 365 Day adj. Wt: 1431 lbs.

Revelstock is a big bull with a ton of middle and you can sure see that in these sons. We purchased Revelstock from Erixon Simmentals in 2014 for \$24,000 and we are sure pleased with his calves. Regulator has excellent length, and a good hip. It looks like he swallowed a round bale, he gets deeper bodied every time you see him! Just look at his growth numbers. He has a good testicle size and did I tell you how quiet he is? Has a terrific mother, she raised the high selling Vegas son that was purchased by Crocus Simmentals at last year's sale, we seen him this fall, impressive, what a tank he is! Regulator will add power to your program, increase frame size, performance, milk production and put extra pounds on your calves.

Another February born Revelstock son, loose and soggy, already showing heavy muscling in the rear quarter at this young age. His full brother was one of the three bulls purchased at last year's sale by Stolson Farms at Hodgeville, Sk. His Crocket dam is the daughter of our powerful Woodstock cow and her bull calf sells as

lot 24. Super cow family to buy into, early maturing and lots of grow on both sides of Rockateer's pedigree. Size matters and pounds pay bills. Here is a bull that is guaranteed to give you bigger and better results in your next calf crop.

~ Hetero Polled ~

Lot 5 in the red division and lots 47, 48 and 49 in the black section are all full brothers and we are very pleased with them all. Their sire is Stepping Stone who is homo polled and hetero black. Crossroad 106R is the dam of Black Sands, she will be thirteen this year and is the old matriarch of one of the most prolific cow families on the farm. She has raised some exceptional females that are real producers. She has always calved in January, has flushed well and has seven sons from three different sires in the sale this year. Black Sands has good performance, can really move out well, has a big rear quarter, adequate thickness, clean sheath, good hair and eye-appeal. High maternal values and fertility complete his list of credentials. Here is a bull that will cover all the bases and is sure to get your attention on sale day.

His name says it all! Pictured in November you can certainly see his potential at this early age. He is a full brother to the lot 10 Mercury bull and is

another transplant out of the old 106R cow that we have been telling you about in many of the previous lots. He will have that same excellent fertility with explosive maternal characteristics in this bloodline. Five impressive daughters were also born from this flush, four will remain in the herd and the other extremely strong heifer calf was sold at the Source female sale to John Beechinor for \$10,250. Black Style is a moderate framed, deep ribbed, big butted with good hair and definite presence that stands on solid footings. He also has an excellent disposition too. Take some time to evaluate him on sale day, we know you will put a big check mark beside him in your catalogue.

Should have called this one Black Tank, what a chunk he is! Wide topped, big butt and has a North Pole hair coat, better than a Polar bear. We purchased his dam at Simmsational in 2015 from Erixon Simmentals for \$18,000 and she is due to calve again in January. Her first calf was a fancy black heifer that our granddaughter Olivia claimed for her 4-H project. Champion 4-H female is what the judge said. She also went on to win the Tiger Lilly Classic in conjunction with the PA EX. Granddaughter and heifer are pretty tight, checking every day now, anticipating the birth of her calf. Grandma is thinking this could be a new little herd emerging, but her Dad is digging in his heels a bit so I think everyone that reads this should call or text him 306-227-9910 and tell him to **JUST GIVE HER THE HEIFER JODY** so she can start her own herd!!

Back to the bull, he is really good, and we think he will sire calves that will make you smile all the way to the bank!

We are excited about the future of our black division and purchased the \$42,000 homo polled, homo black Wheatland Next Up bull for the outcross genetics. His daughters will be a strong base for us to build on, they are all a very impressive group. Here is a solid black bull that covers all the bases. Blackstock is pictured here November 13th under ten months of age exhibiting plenty of body performance with a ton of presence and big time testicle size for a bull this young. We have three daughters working in the herd from his good producing Gunner dam and she is bred again early to Next Up. She is also the grandam of the lot 85 Grand Fortune replacement heifer that we probably should be keeping. With such strong maternal characteristics, Blackstock's daughters will be exceptional. He will transmit his explosive growth into all his calves, they will be worth bragging about and you can deposit the proof at the bank!

Only three Wheatland Next Up sons for you to choose from this year and here is one that will also get your attention on sale day. Great hair coat on this black stylish February born bull that has good performance while still maintaining his structural integrity. His good uddered Esposito dam is backed by an extremely good cow family. She raised a top end heifer that sold in last year's bull sale to W2 Land & Cattle at Vermilion, Ab. She is due again in mid-January and we are sure hoping for a heifer calf. Lots of eye appeal in this herdsire prospect, his calves will bring a premium.

Now this is style. And wow, did this little fellow ever grow! Born unassisted to a heifer that is full of powerful females in her bloodlines, they are the kind you could count on year after year to bring home the best. Pictured here November 19th at just over nine months, this TSN Predator son has not only covered all the bases, he has hit it right out of the ball park! Imagine him in a couple years, showing off all his maturity in your front pasture, the neighbours will be hoping he is a fence jumper so he can come visit their cows. Moderate birth weight, good performance, chalked full of maternal traits, all the qualities that adds value to his progeny.

A moderate framed, February born son sired by our calving ease specialist TSN Predator. He has excellent performance, great hair and that all important money stripe on the face. This is the first calf from an All In heifer that is one of Gerald's favourites. This young bull's maternal grand dam has certainly produced her fair share of good calves too, and I'm sure Black Out's dam will follow in her mother's footsteps, a very good cow family here. Black Out has good muscle development and performance combined with a moderate birth weight, here is a bull that will sire some outstanding females and thick attractive sons that are right for today's market.

This one has been a favourite since spring, and all summer in the pasture you couldn't help but admire his thickness and style. The money stripe on his face and his stature really gives him that bull presence look. We were hoping to get a female from these embryo's we purchased, it was so long ago that we sold his dam Ramona as a heifer calf at Checkers. She was so good, it would have been nice to get a piece of her back by having a daughter to work with. Black Sedan is an excellent bull, full of consistency, he will go on to sire steers with performance and females that will continue to produce long after he is gone.

This is the largest and most impressive sire group we have ever offered. Spartacus has definitely left his mark, siring several high priced bulls selected by both breeders and good commercial cattlemen. Pictured here on November 12th, you can certainly see the natural muscle expression he exhibits at this early age. Scale Down is one of the eight full siblings born, three sons are in the sale, four daughters will be retained in the herd and another fancy female was purchased by Aumack Simmentals at the December Source sale. Umbra progeny has been purchased by Red Willow Ranch, Kulyk Simmentals, Black Gold, and a strong Westcott was purchased at the 2017 Source by Harry and Michelle from Virginia Ranch. Some undeniable qualities in this dark red, goggle eyed herdsire, backed up with strong maternal traits. You could drive many miles looking for a stylish full fleck dark red, goggle eyed bull with a ton of hair that is as good as this one. Come anytime to check him out, we are always happy to see you and coffee is always on.

We have fifteen impressive Spartacus sons for you this year. This is another good Spartacus x Umbra transplant that is bigger framed and very soggy with a ton of hair. He does have some white in the flank on both sides but that certainly won't affect the quality calves he will produce. While touring several customer herds we sure could pick out the calves that our Spartacus sons have sired for them. The most valuable trait is ease of fleshing, and that is where Spartacus genetics shine, his calves have that extra muscling. Good performance from this February born future herdsire, here is a bull that will sire some good ones.

There is a reason for the low weaning weight. This poor guy has had a hard life; he was abandoned at a couple months of age and was too old to swap moms. We thought he would just turn out to be a scrub or a possible meal for predators, so he got hauled out with the

commercial cows to a bush pasture. Well, what a surprise we got in the fall, we should have renamed him Tuff, he has all the same qualities as the other brothers just in a smaller package. We certainly feel that he has the quality and deserves a spot in the bull sale ring. He is full of thickness and style and has all the strengths of the lot 62 & 63 brothers. He surprised us and we think you will be pleasantly surprised too when you see him on sale day.

Syndicate is a full brother to Crossroad Subaru that we sold in the 2016 bull sale for \$37,000 to Canadian Sires, Mark Land & Cattle & Spring Lake Simmentals. He has a ton of potential and as you can see in this mid-November picture, he is long. His dam comes from a long line of great uddered females. In fact the whole pedigree is stacked full of proven bloodlines that have produced the best year after year and when you combine the Spartacus genetics into the mix, you get these results! We have a full sister to these powerful brothers that is due to calve to our exciting new herd bull, RWR Steiger. Syndicate's dam is due to Blueprint for a mid-January calf and we are sure hoping for a female. Syndicate has it all, early maturing, natural thickness, he weaned off in early September at 915 lbs. You just don't find this length every day, and you may have to look twice when you read the numbers on the scale when his long bodied steers step on. Length equals money in the cattle business. Keep all the daughters you can out of this one.

Been admiring this guy's thickness all summer, he is a very quiet natured and good structured bull too. Pictured here November 12th you can sure see that Spartacus rump muscle forming and his thickness throughout. His dam is a transplant from a cow we co-owned with our good friends from BBBG in Quebec. She is a moderate framed cow, nicely uddered, is very fertile, has always

calved and is due again in January. She has produced a daughter for Kulyk Simmentals from North Battleford, Sk. and Allan Tkatchyk at Ashmont, Ab. Pernitsky Farms from Wilkie, Sk. also purchased a very good son at last year's sale. A very good full fleck pedigree on this future herdsire and just an overall well rounded individual. Sellers will be a popular bull on sale day, give this one some serious consideration, he will be worth it.

A high performance Spartacus son here with a larger frame and massive muscle that is capable of covering a lot of cows. As you can see he does have a small patch of white on his back and some on his legs but that won't affect the super soggy steers he will sire. His Harrach dam is from a family of good milking, tight uddered females. Longevity in this bloodline too, his grandam raised many good calves for us. Reid Nichols from Heinsburg, Ab. purchased a son from Score's dam and a daughter was selected by Sunville Simmentals in Manitoba. If you are looking for high performance and wanting to fill your feedlot with early maturing heavy weight calves that will finish faster, there is no doubt you will Score big by using this guy as your next herd bull.

Bolero is a half-brother to Spartacus and we sure are pleased with his calves. We have several daughters milking and their udder quality is very good, they make excellent mothers raising heavy weight calves. Boulder is pictured here November 12th at only nine and a half months and you can certainly see his early maturing qualities. He is an impressive, deep ribbed, good haired bull. His half red factor dam is very fertile always calving in January. Last year her top end Paparazzi son sold to our good neighbour and Gerald's long time fishing buddy Wayne Jessop at Cattle Creek Crossing. Rafter 4-T chose a daughter as their pick of the herd and other good sons were selected by Moore Ranch at Loon Lake, Sk. and Old Elm Colony at Magrath, Ab. Boulder would be an excellent choice for your next herdsire, he will increase your weaning and yearling weights, give you better fertility and add maternal strengths into your replacements. He will inject explosive growth into your steers, like you have never seen before. Promise!!

Born an 81 pound twin and pictured November 17th. Just look at him now! You want length, depth, muscle, growth, colour, hair and a bull big enough to breed all your cows and some of the neighbours too? Then put up your hand and keep it there when Crossroad Canadian comes into the sale ring. He will easily pay for himself and more with the calves he sires. He was the 150th calf born, so his name had to be Canadian to coincide with our country's birthday. He is a Crossroad Subaru sired bull and we have four of his excellent sons in this year's sale. Canadian's dam has always brought home the heavy weights and we also have two of her good daughters working in the herd. Here is a bull that has it all, put him to work in your pastures, you will be glad you did.

This stylish Subaru son was born a 73 lb. twin and check out his performance. Subaru is a super thick Spartacus son that sold for \$37,000 in our 2016 bull sale. His full brother sells as lot 65. Their dam is a tremendous productive cow with small teats and a tight udder. We have been watching this little twin Generator, and as the months went by he got thicker and really thick and impressive and WOW. His young Rusty dam has also contributed big time, she is from a very good cow family and has raised a good bull for Gerard Regnier from Makwa, Sk. Generator is a moderate framed, well-muscled bull, has great colour with extra pigment, lipstick, black hooves and huge testicles. He is definitely interested in the opposite sex and is going to be happy when he gets a group of cows to himself. Here is a very good bull that will be easy to find on sale day.

A big bodied all meat and muscle Subaru son pictured November 15th. One of the reasons we picture early is so that you can see the potential these young bulls have and not just make your decision on sale day when they look their best. For most of our bulls it is three or more months from picture day to sale day. It is good for our buyers to have the option of assessing them at different stages of their growth, and besides that, the "Master", or "the old guy"- Gerald ( I do have other names for him too sometimes) he doesn't move as fast as he used to and we have to start picturing early or we will never get done!! You will like this Granite bull, he has a super Cornerstone mother that has raised bulls for Peace View Colony, Dawson Creek, B.C. and another for Hanna Simmentals at Didsbury, Ab. We also have a good daughter in the herd. An excellent choice for your next herdsire, a real money maker.

Born a 94 lb. twin that has grown into quite a good bull. You need a strong cow to produce a good bull and these Cornerstone mothers are some of the best. Her sons have sold to Allan Tkatchyk at Ashmont Ab., Rene Peuch from St. Walburg, Sk., Kevin Ehalt, Humbolt, Sk. and we also have a good daughter retained in the herd. Grand Slam is long bodied on a bigger frame, has adequate muscle, good hair coat, colour and style. Good temperament on all the Philosophy calves too. Grand Slam daughters will be exceptional and steers will be growthy with a ton of performance that will excel in the feedlot. Here is a good bull that could be used on a variety of cows with excellent results.

84

**CROSSROAD JERONIMO 21E**

CRF 21E 1193760 06-JAN-2017 HORNED FULL FLECK

udders, so keep these Jeronimo daughters! These Radium calves are so nicely made. Jeronimo is full in the flank, square over the rump with good muscle expression and that tail head fits in so nicely. Good clean lines on this bull with great hair and colour, testicle size, he is smooth over the shoulders and has calving ease on both sides of his pedigree. Geeze, maybe we should keep this one! He may be the last lot in this catalogue, but he is good and will be a popular bull on sale day.

A very good long bodied, moderate birth weight full fleck bull that of course has that Radium style, style, style! Crossroad Radium has been used successfully over the years as an easy calving bull and he has sure sired some fancy calves! We have many daughters working in the herd and they are phenomenal producers. Jeronimo is the first calf out of a Spartacus heifer. She has a pedigree that is full of extremely good producing females with small teats and tight

## OPEN REPLACEMENT HEIFERS

We are pleased to offer 15 solid open replacement females for the sale this year. We have tried to select something for everyone. They all have consistent producing bloodlines that represent our herd and we are confident they will be productive females for their new owners. We are proud of what some of the females we have sold at previous sales have done for their new owners. Several have gone on to produce high selling progeny. The heifers are available for viewing any time prior to the sale. We always look forward to your visits.

 His grandfather Pepinics Master ranked as the number two in all disciplines combined of the Canadian Supreme Futurities.

**TERMS** - The terms of the sale are cash or cheque payable at par at sale location unless satisfactory credit arrangements have been made prior to the sale. The right of property shall not pass until after settlement is made.

**Crossroad Farms** reserves the right to require a certified cheque as settlement before releasing any sale cattle. Should the purchaser fail to settle for his purchase Crossroad Farms reserve full power to resell the animal to the best advantage either publicly or privately, without further notice. Any loss arising from such resale together with keep and all other expenses shall be payable by the defaulter. All settlements must be made with the clerks of the sale before any cattle will be released. Crossroad Farms and sales staff has the right to refuse bids from anyone who has a previous record of default in payment and who has not made prior credit arrangements, prior to the sale with Crossroad Farms.

**BID**-Every animal consigned to the sale must be sold by auction. No by bidding will be permitted. Each animal will be sold to the highest bidder.

**DISPUTES**- In case of disputes, bidding will be reopened between the parties involved. If no further bid is made the buyer will be the person from whom the auctioneer accepted the last bid. The auctioneer's decision in such matters will be final.

**PURCHASER'S RISK**- Each animal becomes the risk of the purchaser as soon as sold.

**ANNOUNCEMENTS** from the auction block will take precedence over printed matter in the catalogue. Buyers are therefore cautioned to pay attention to any such announcements.

**CERTIFICATE OF REGISTRY**- The proper Registration or Recordation paper, as the case may be, will be duly transferred and furnished to the buyer for each animal after the settlement has been made.

**SHIPPING**- Assistance will be given in making shipment after the sale but no risk is

assumed by the Seller. Purchasers are requested to furnish shipping instructions when making settlement.

**GUARANTEE**- All animals will carry standard breeding guarantee as specified by the Canadian Simmental Association. At no time shall the seller's liability exceed the purchased price of the animal.

**EXCEPTION TO GUARANTEE** - In cases where the animal is subjected to any hormonal or surgical reproduction techniques after the sale, the guarantee shall be null and void. In the cases of bulls, they are guaranteed to breed naturally according to the Canadian Simmental Association Guarantee but no guarantee is given that semen from any bull will freeze.

**HEALTH** - All animals will have passed the required tests as determined by Agriculture Canada at sale location. It is the buyer's responsibility to determine health requirements for importing any animal into his province or state.

**ACCIDENTS**- Although every precaution will be taken to protect the safety and comfort of buyers, neither Crossroad Farms or any Sales Staff or Association assumes any responsibility in this matter and disclaims any liability legal or otherwise in the event of accident or loss of property.

**RIGHTS AND OBLIGATIONS** - The above terms and conditions of the sale shall constitute a contract between the buyer and the seller and be equally binding to both. Resale of animals following purchase in this sale shall constitute a separate transaction and the rights and obligations of the two parties connected thereto are not covered by the terms and conditions of this sale.

**PICTURES**- By attending our sale you are giving your consent for your picture to be taken and used for promotional or advertising purposes only of Crossroad Farms. If you wish to not have your picture used please advise us in writing immediately after the sale.

# THE FAMILY HAS BEEN PREPARING ALL YEAR FOR THIS DAY

THE BULLS WILL BE READY
