18th Annual Bull & Female Sale

Wednesday, February 21, 2024 at 1:00 p.m. CST
Crossroad Farms Sale Barn, Shell Lake, SK

WELCOME from Crossroad Farms

Welcome to our 18th Annual Bull and Female Sale. The excitement is building as we head into another bull sale season. It truly is our favourite time of year. We look forward to the connection made with our customers and meeting new people at our farm, our sale and on the road.

The Crossroad kids continue to dive deep into their passion of life here on the farm. Helping whenever and wherever, while still getting out and experiencing other operations and some added fun. Shelby decided to hit the junior show road last year. Jaici also did one show and Olivia was able to join Shelby at a couple shows. This created renewed love for showing and some new friendships. They are all investing and expanding their own herds. They also attended Edam Fall Fair for a second consecutive year and came out with Reserve Champion Pen of European Bulls. To end off the year, a strong offering of females was put together for the Border City sale, which was a huge success.

Olivia continues her 3rd year of post secondary at OPSU in Oklahoma on scholarship in softball and livestock judging doing her Animal Science degree. Shelby began her first year of obtaining her agronomy degree at the U of S. Jaici is in grade 11 and Cooper is in grade 9 and begging to quit school so he can farm everyday fulltime. Times are changing rapidly and thankfully these kids help us keep up.

Once again we have to thank our employees. We are very grateful for their long hours and pride in the jobs they do. Kirk and Claude are an integral part of the daily success of our operation. We know how lucky we are to have both of you work side by side with us. And to Ian Wasden for doing night calving allowing us to get those daily jobs done well and keep our sanity.

The anticipation for this year's sale has been building ever since this set of bulls hit the ground. From big-time flush siblings to an abundance of new sire groups. Our females in production are at the peak of the Simmental breeds standard. There is no absence of power, structural correctness, and dependable fertility. The bulls relay these notable attributes loudly. As you make your way through all three pens, you're met with consistent quality through and through. A set of easy fleshing, genetically proven, fluid moving bulls that are going to excel at their given task. With a large sire group on offer, there is a wide array of options for every program out there. It is our goal as a family to keep our program values strong, this set of bulls is an exemplary model of that.

We invite you to come view the bulls and the great females backing them any time before the sale. Take your time in the pens looking over our offering. We will be available to answer any questions you may have and the coffee will be on. Videos will be available in early February.

If you are unable to attend the sale give us a call or you can contact the capable staff at Bohrsen Marketing to bid on your behalf. DLMS will also be available for online bidding.

As always, we invite you to come early and enjoy a home cooked meal and some Crossroad hospitality.

Insurance: Steen Agencies will be in attendance or can be contacted at (306) 887-2020; Cell: (306) 961- 6359, Email: nhawres@steenagenciesinsurance.com. Each animal becomes the risk of the purchaser as soon as they are sold. **ALL BULLS STAYING AT CROSSROAD FARMS UNTIL DELIVERY MUST BE INSURED.**

Videos: Sarah Hasson, Golden Thread Images, (306) 681-5340

Catalogue Design: Cattlepics.com, Patricia Shewchuk (780) 603-3066

“Sight Unseen” Purchase Program: If you are unable to attend the sale but are interested in our bulls give Gerald or Jody a call, they would be pleased to serve you personally. They will go over the bulls with you and recommend which ones would best suit your program. Bulls are guaranteed to meet your approval when delivered.

Crossroad Farms 100% Guarantee: All bulls are guaranteed to be satisfactory breeders in accordance with the Canadian Simmental Assoc. guidelines. Should a problem occur barring physical injury or mismanagement, a bull of equal value will be provided or a credit will be issued towards the purchase of another bull. We always have back-up bulls for our customers and we guarantee you will have a bull to service your cows.

Delivery: Free delivery in Alberta, Saskatchewan and Manitoba to central points, we will try our very best to deliver them right to your yard. Cost shared arrangements can be made to other destinations. Delivery date is at the seller’s convenience.

Welcome U.S. Buyers: The U.S Exchange rate will be announced prior to the sale. Crossroads will assist with all necessary health testing, vet examinations, paperwork and obtaining your state permits associated to export your animals. U.S. Customs & UPS brokerage charges will be paid by the purchaser for the cost of \$400 (CND) per animal paid to Crossroads at the time of settlement. We will arrange trucking and provide delivery to the border.

Semen Reserve: Crossroad Farms reserves the right to collect semen for in herd use only on any bull in our sale. Semen would be collected at Crossroads expense and buyers convenience.

VIDEOS WILL BE POSTED IN EARLY FEBRUARY FOR VIEWING

Health

Dr. Blair Simonson continues to do exceptional reproductive work from semen testing to embryo work for us. We would also like to welcome our new local vet, Dr. Justin Hodgson, Farm Docs in Spiritwood that looks after our overall herd health. It is very reassuring to have both of these dependable Veterinarians on our team.

Crossroad bulls are developed on a TMR ration consisting of cereal silage, chopped hay, super oats and a custom formulated bull supplement. This ration will optimize longevity and ensure proper development from mass and structure to testicle development. All bulls will be vet checked, scrotal measured and semen tested. Bulls were treated with Selon E,Vit.AD, Tolyrazuril, Nasalgen as baby calves.

June - Fermicon7/Somugen,Vista Once;

Sept. - Vista Once booster, Ivermectin & Maxiguard;

Dec.- Sabre for lice, first shot of Fusogard for footrot and a second dose prior to delivery. Sale day weights will be posted.

We have twelve red and three black Sysco sons for you to choose from this year. They all offer natural thickness and tremendous eye appeal. Both Lots 1 & 2 are transplant brothers from our Gracie donor cow and were members of the Reserve champion pen at the very competitive Edam Fall Fair all breeds show this past fall. Sanchez is an excellent example of what Sysco is capable of siring. He is super stylish with his dark red thick hair coat and as you can see in this November picture he has more than ample muscling in his rear quarter and even more impressive width when you assess him from behind. He exhibits excellent length of spine, good feet and legs along with a ton of maternal traits you can count on. Here is a very complete bull that would move your program forward into the future. ~ **Homo Polled** ~

Here is one of our big boys, and another member of the trio that went to Edam this past fall. He is a tremendous Sysco son with explosive growth and has been a standout since birth. Pictured here under eleven months of age, you can certainly appreciate his thickness, deep quarter, overall balance and big testicles too. And look at his length of body, just calculate how much more your calves will weigh with an extra foot of length! Good performance and full of proven maternal strengths too. His dam has been an awesome producer with tremendous fertility and is due again in early January. We have six full siblings to Lots 1 & 2 in the replacement heifer pen that we are also very impressed with. You will drive a lot of miles to find a bull with this much potential. ~ **Hetero Polled** ~

Sniper is the third member of the Edam Reserve Champion pen of bulls and you will see why when you see him on sale day. My summer notes on him say; "super good dark red bull, deep, long, wide, lots of testicle." He has big time performance from both sides of his pedigree as it shows in his WW and YW EPD's. His dam is a larger framed cow that raised a fancy heifer purchased by Downhill Simmentals from Minnedosa, Mb. Her last year's bull was selected by Sean Peterson from Debden. If you are looking to add power and performance to your next calf crop, here is one that would be a real solid choice for your next herd bull. ~ **Homo Polled** ~

The Spartacus X Sysco combination is undoubtedly one of the most impressive groups we have on offer this year. Two sires that have made their mark in our herd with the mass and power they pump into their progeny. 88L is one that grabs your attention out in the pen with that blood-red colour alone. The sheer mass of this individual, along with his desirable depth and his square structure screams herd sire candidate. His dam Crossroad Emylin 125E has been a dependable producer, with an exceptional ability to feed her calves to their full potential each year. 88L continues to impress us as he matures, seemingly finding room to improve on top of his already exemplary stature. ~ **Homo Polled** ~

Here is one that will certainly catch your eye when you walk into the pen! Another great Sysco son that was born in February and pictured at 10 months of age. He exhibits a ton of style with great colour and hair on a moderate frame and packed full of natural muscling. As you can see testicle size won't be an issue come breeding season. The Spartacus butt from his dam's pedigree is an added bonus that will definitely show up in Sedona's future generations of offspring. His Code Red grand-dam is the most consistent producing donor cow we own, we have several transplant full sisters to Sedona's dam that are all top producers. His dam is bred for a mid-January Sysco calf, her last year's American Red daughter was purchased by JMR Farms at Goodsoil, SK. His combination of genetics ensures that he will make a real difference in your program. ~ **Homo Polled** ~

This mating certainly worked well. Here is another excellent Sysco son mothered by an awesome Kill Switch dam. She has excellent fertility, has always calved early and is due again in January. Her previous sons have all been standouts and sold to prominent cattle producers. Showpiece continues to impress us with his growth, wide top, stylish colour and hair coat. You can also add solid structure, adequate testicle size and good disposition to his credentials which shows you the potential this future herd sire has. Gerald says he just gets better every week. Showpiece will be a real herd builder. He will inject performance, style and strong maternal values into the calves he sires. Be sure to check him out, he would be an excellent choice for your next herd bull. ~ **Hetero Polled** ~

Here is a young Sysco son with a moderate birth weight and above average EPD's. He is solid in his structure, has great colour with a thick hair coat. He has more than ample muscle and testicle size for his age. He is also pictured in November, we feel it's important to give our customers the opportunity to assess these bulls in the early stages of their development. His excellent uddered dam certainly did a good job raising this one; she has a bright future and is bred for early January to our impressive Westgold herd sire we purchased last spring. There is a lot of consistency in this future herd sires genetics, full of excellent traits to pass on to his progeny, be sure to check him out on sale day. ~ **Homo Polled** ~

Nacho has been a standout since birth. The kids decided last minute to take a cow/calf pair to the Turtleford summer show and snagged this pair from the pasture the day before and they won first place! Nacho is solid in his colour, his thickness, structure and disposition. He moves out well and has that real herd bull presence to him. His American Red dam is pegged to enter our flush program in the upcoming years. She comes from a super strong cow family with her dam and grandam raising many top end bulls for our customers over the years. Her first calf sold at last year's sale in the heifer division to Regan Schlacter from Humbolt for \$10,000. We are hoping her next calf is a heifer, it won't be leaving the farm. A package that couldn't be more complete, don't miss your opportunity! ~ **Homo Polled** ~

Another excellent Next Century son here with their signature dark red colour and great body type. This guy was also pictured in November and is going to have substantial mass by sale day. He is a very good bull, excellent length of body, good muscle expression in the rear quarter, big scrotal size when we measured in early December. He has all the makings of a top end herd bull and is homo polled by pedigree too. His powerful Westcott dam has always calved in January and will be one of the first this year too. She raised two sons purchased by KJ Larre Ranching from St. Walburg and Devin Bouffard from Kincaid, Sk. We have one daughter working in the herd and be sure to check out her first contribution to the bull sale; the fancy Lot 29 Flash son. A proven cow family with some real consistencies here that you can count on and help in your decision for choosing that all important next herd sire. ~ **Homo Polled** ~

Here is the third Next Century son we have on offer for you and we sure wish we had more. This fella comes to you with a moderate birth weight and thickness throughout. He has a solid colour pattern is sound in his structure and moves out well. His Capacity dam belongs to the strong cow family that raised Lots 13 & 14 and she is also expecting a mid-January Stratton calf. Some very high maternal strength's in this bull's pedigree. We are confident Network will sire some tremendous females and sons that will have plenty of growth, a real good choice here. ~ **Homo Polled** ~

Only one red Connected calf for you this year but several in the black division to choose from. This guy is pictured here at just over 10 months of age looking very stylish with his dark hair coat and that all important facial chrome. He has a real good rear quarter developing, good testicle size and quiet demeanor too. His American Red dam has an excellent udder and the Ruby donor cow on the bottom of his pedigree raised several top end sons and daughters for us. Here is a bull with good growth and a strong combination of genetics from his sire and dam that carry high maternal values you can build a herd on. 208L will mature into a very complete bull and on sale day we are confident he will be on your list of contenders. ~ **Homo Polled** ~

This poor cow sure had a belly full of baby carrying these twins. She bred back for early February, sure like to keep her kind around that can pump out quality like this. As you can see Millions is an impressive big bull that has an extra rib or two. He has a wide top with lots of meat and muscle that carries through to his rump along with a good sound structure and excellent testicle size too. He has very strong maternal traits from his Cinderella Man sire and Spartacus /Code Red dam. Millions will sire some heavy weight steers and daughters that will be strong producers. We have no doubt that you will be extremely happy with his calves. ~ **Hetero Polled** ~

Our last Cinderella Man in the catalogue order but with all the same qualities as the others, super long bodied, great depth, well-muscled rump and structured well. His dam is a little more moderate framed but her lineage goes back to some wicked producing cows that raised some of our best. She raised a good bull purchased by Crooked Creek Farms at Big River, Sk. and we have a strong daughter retained in the herd. 190L has above average growth numbers and this extra punch of performance will pay big dividends when you go to sell your calves. Here is one that gives you some excellent options when you are shopping for your next herd bull. ~ **Hetero Polled** ~

Here is a mid-February born bull that continues to grow and thicken and look better every week. He is a moderate framed incredibly good, solid red American Red son. These sons have been very popular at past sales and unfortunately due to an injury this is the only one we have for you this year. We have some amazing American Red females with such good udders. His dam also has a calving ease pedigree hence his low birth weight and 14.6 calving ease EPD. Pictured here at only 9 1/2 months of age, he will be impressive by his one year birthday at sale time. Adequate growth and large testicles when we measured in early December, homo polled by pedigree too, here is a young bull with lots to offer. ~ **Homo Polled** ~

Night Hawk is a calving ease sire that was bred to 139L's powerhouse dam we purchased at last year's Camrose Country Classic sale from Tri-K Cattle at Beaverlodge, Ab. This big bodied broody female certainly did a good job raising her first calf and is bred back for mid-January again. We think 139L will be the first of many excellent calves this female will raise. He has adequate growth, huge testicle size and a good disposition. He is sound in his structure and is maturing into a herd bull that will add quality to the calves he sires. Homo polled by pedigree, this future herd sire will work well in any herd. ~ **Homo Polled** ~

This is our only Top Tier son this year and we are sure you will like him. WLB Top Tier is used widely by many breeders as a calving ease sire for heifers. Turbine has calving ease on both sides of his pedigree ensuring that giving birth to Turbine babies will be an easy process. His dam is a nicely uddered, moderate framed Red Stetson female and has bred back for another January calf. This future herd bull has a solid colour pattern, he profiles very nicely and is thick enough in all the right places. Everybody needs one like this in their herd bull pen and we are confident you will appreciate his qualities come sale day. ~ **Homo Polled** ~

We are very pleased to have some of these Flash sons for you. We have trusted him to breed our heifers for the past four years, they calve very easy and have some "get up and go" to start sucking. Flashman was born at 66 pounds with a 17.1 calving ease, so some definite numbers we all like to see when looking for a bull for heifers. When each kid turns 13 they get their pick of the purebred heifer pen so they can start their own herd. The dam of Flashman was the obvious choice for Cooper. She is Crossroad Jasmine who was sired by Connected and mothered by the great Asta cow that has had high selling sons at previous bull sales. Jasmine has a perfect udder and is bred early January to the \$280,000 phenom Mader Walk the Line. Cooper has very high expectations from this cow and her first son is one you don't want to miss out on. ~ **Homo Polled** ~

An excellent Flash son here with a moderate birth weight and you can sure see the muscling his Sysco dam has added to that rear quarter. Fantom also has a Westcott grandam, be sure to check out her Lot 16 son. She is one of our finest cows and this also adds some extra power to this future herd sire's pedigree. Fantom is dark red with a super stylish blazed face. He has plenty of thickness throughout, strides out with ease and will mature into a very impressive herd bull that any cattleman would be proud to own. He will be very popular on sale day and his proven genetics guarantees success for the calves he sires.

Another fancy blazed face Flash sired son. Again a moderate birth weight and a 17.5 calving ease EPD. These are the type of bulls that make a no worry calving season for heifers and for us! He is also carrying adequate muscling in all the right places, good colour, hair and structured well. We purchased his fancy dam from Barry Labatte and are certainly pleased with the job she has done raising her first calf. She has bred back for early January and we look forward to her future production. Fender is pictured here in November and at sale day in three months he is going to be looking very impressive. If this guy is your pick then you have chosen very well, you will be pleased with the results. ~ Homo Polled ~

RFS **HEAVY
Hitter** H45

TSZ **KEEPSAKE** 703A

SALE FEATURE

THIS IS A ONCE IN A LIFETIME OCCURRENCE, FOR US AND THE ENTIRE INDUSTRY. A WHOPPING 19/20 FLUSH-MATES BORN DURING OUR 2023 CALVING SEASON. THIS FLUSH WAS HIGHLY ANTICIPATED CONSIDERING THE TWO OUTCROSS PEDIGREES INVOLVED. THE DAM OF THIS FLUSH TSZ KEEPSAKE 703A WAS ON OUR RADAR FOR YEARS AFTER PURCHASING HER GRAND FORTUNE SON, TSZ MADOC 305F BACK IN 2019. A BULL THAT LEFT HIS STAPLE IN OUR BLACK PROGRAM BY IMPLEMENTING TRAITS THAT ARE CHASED IN TODAY'S SIMMENTAL BREED. HIS FEMALES ARE ONE OF THE MOST IMPRESSIVE GROUPS IN OUR PRODUCTION HERD CURRENTLY. THE NOW TEN-YEAR-OLD KEEPSAKE COW WAS PURCHASED FROM TRAVIS HERTER IN 2021, SLATED TO ENTER OUR FLUSH PROGRAM IMMEDIATELY. STILL AT HER AGE, SHE BOASTS AN IMPECCABLE UDDER AND A PERFECT FOOT, ON TOP OF HER NATURAL ABILITY TO PRODUCE DIVERSIFIED PROGENY THAT DISTANCE THEMSELVES WITH THEIR SHEER QUALITY, GROWTH AND APPEAL. MATED TO THE BIG TIME POWERHOUSE AMERICAN RFS HEAVY HITTER H45 WHO WAS PURCHASED FOR \$130 000 USD, THIS FLUSH WAS UNDOUBTEDLY A CROSS THAT IS BOUND TO PRODUCE CATTLE THAT THE INDUSTRY SEEKS. UPON THE ARRIVAL OF THE 19 FULL SIBLINGS, OUR HIGH HOPES WERE BEYOND SATISFIED. WITHIN TWO MONTHS, WE KNEW WE HAD AN EXCEPTIONAL SET OF YOUNG CATTLE IN OUR HANDS. WITH TIME, THE GROUP JUST GOT BETTER AND BETTER. IT IS WELL KNOWN THAT IT IS HARD TO FIND A MATING THAT PRODUCES FEMALES AND MALES WITH EQUAL QUALITY, THIS FLUSH DID JUST THAT. THESE 8 BULLS HAVE BEEN AT THE TOP OF THE PEN SINCE THE BEGINNING, AND THAT'S WHERE THEY WILL CONTINUE TO STAY. THIS SET OF 8 ARE DEEP-SIDED, HEAVY-MUSCLED, AND THE EASY-DOING TYPE. BULLS WITH A TON OF APPEAL BETWEEN THE DISTINCT WHITE MARKINGS AND THEIR NATURAL ABILITY

TO MOVE WITH FLUIDITY AND GRACE. IT HAS BEEN A LARGE DEBATE FOR MONTHS AS TO WHICH IS THE BEST BY THE ENTIRE FAMILY. THE FEMALES HAVE ALREADY PROVEN THEIR POTENTIAL WITH THE FIRST TWO TO SELL AT THE 2023 BORDER CITY SALE, AVERAGING \$22,500 TO RANCIER FARMS AND CANADIAN DONORS. THERE ARE 7 FEMALES CURRENTLY SITTING IN OUR REPLACEMENT PEN, UNQUESTIONABLY FUTURE DONORS IN THE MAKING. WE ARE EXTREMELY FOND OF THIS GROUP AS A WHOLE AND PROUD TO OFFER THESE 8 SONS WITH FULL CONFIDENCE IN THE ENTIRE SET TO EXCEED IN WHAT THEY WERE BRED TO DO.

Another super strong, big bodied Heavy Hitter son showing heavy muscling and large testicle size in this early December picture. He was mothered by a fancy, deep bodied Madoc sired female. Madoc's dam is the Keepsake donor cow that is also the dam of the last eight lots, so these sons are all closely related. All the females with the Keepsake dam in their pedigree are incredibly good and we are excited to move forward with these genetics. Here is a stylish bull full of performance with deep maternal traits that is sure to sire some of your best. We are confident he will be an outstanding herd sire that will play a big part in the future of your program. ~ **Homo Polled** ~ **Homo Black** ~

As you can tell in this November picture his guy has a lot going for him. He certainly has adequate muscling and good testicle size at this stage of his development. This is the only Black Next Century son we have this year and we really like him. His dam has raised top end progeny for breeders at Black Gold Simmentals, Pernitsky Farms, Robert Ellingson and a stunning daughter was purchased by Silver Lake Farms at the Border City sale in December 2022. We have a strong daughter working in the herd, check out her Lot 42 son. Both mother and daughter have good fertility, always calved and due again in January. They are both bred to our new \$65,000 superstar IPU 30-06 that we purchased at Labatte's bull sale last spring. Strong maternal influence in this bulls pedigree. We are confident he will go out and sire some outstanding progeny. ~ **Homo Polled** ~ **Hetero Black** ~

Another job knocked out of the park by Shelby's Miss Rusgold Galaxy 5G cow. This is her third consecutive bull calf that has found itself in the top of our black bull pen. 110L has acquired the best of both worlds of his pedigree. He's a long-spined, deep-sided, soggy-made individual that carries himself with ease. He's one that is guaranteed to produce a heavy set of calves, along with plenty of style. His quiet disposition, masculine features, and outstanding set of feet underneath him make for an impressive, long-lasting herd bull. Homo polled by pedigree. ~ **Homo Polled ~ Hetero Black** ~

Pictured here at just over ten months of age this solid black Sysco son has tremendous potential knowing what his sire and dam's pedigrees have produced in past years. Sysco is widely known for his power and performance and overall thickness. This is only the second calf for Black Sundown's fancy Madoc dam. His grandam has the Lot 40 bull, she has quite the impressive production history. Make sure to check out the consistencies that both of these future herd sires have to offer. Plenty of power and a strong maternal package for you to consider, here is a bull that will add value to your calf crop. ~ **Homo Polled ~ Hetero Black** ~

Black Sedan is a transplant brother to lots 1 & 2, all with the same pedigree just a different colour and fed by different mothers. We have half a dozen full sisters in the replacement heifer pen that get more impressive by the day. We are sure looking forward to get them working. His Sysco sire needs no introduction, sons have been high sellers since his first calf crop arrived. His extremely fertile donor dam has produced a large number of embryos and also bred back a few weeks after to deliver another first cycle bred January calf. Some real qualities here that are not always easy to find. Be sure to check out his video that will be online in early February and better yet come to the sale and see for yourself, guaranteed he will mature into an excellent herd bull for his new owners. ~ **Homo Polled ~ Hetero Black** ~

We like this guy a lot. He is a super deep bodied, solid black bull. We raised his sire and have four of his sons for you this year. We also have a couple daughters that will calve in early January and some fancy ones in the replacement pen too. He is pictured here in November and you can see the herd bull look he carries, long spined, full of muscle and an above average set of EPD's. His Cobra dam has left us two incredible daughters in the herd and her last year's good son was purchased by Martin Simmentals and G&D Simmentals from North Dakota for \$62,000. We also collected in herd semen and are anxiously waiting for these calves to arrive. Good fertility from Black Awe's Cobra dam with all her calves born and another due on the first cycle for January. We think you could drive a lot of miles to find one this good. If you are looking for Black, here is one to consider. ~ **Homo Polled ~ Homo Black ~**

This bull's dam has been an anchor in our herd for the last number of years. She produced 8 daughters, all in the herd except for Crossroad Frankie who was selected by Scott Bohrsen as "Pick of the Herd" a few years ago. Both Olivia and Shelby have won Champion female with different daughters and if Black Anchor would have been a heifer it would most certainly be haltered and groomed for the next show. This may have been her last calf but we know her legacy will live on through her incredible daughters. Black Anchor is a solid black larger framed Black Accolade son that will certainly be something to see on sale day in three months' time from when he was pictured. He will sire long bodied heavy weight calves and with these proven genetics the daughters will be some of your best ever. If you are wanting to build a herd you better put a big checkmark by Lot 46! ~ **Homo Polled ~ Homo Black ~**

We have a very solid group of Connected sons on offer for you this year, some that have toured our black bull pen say they are down-right awesome! Crossroad Connected sold at our 2020 sale for \$100,000 and is widely used by breeders with many sons and daughters fetching top dollar. Here is a super stylish son pictured in November that is showing his natural muscling potential from front to back. He is solid black, great haired, good footed, sound structured bull with above average EPD's. His transplant American Red/Code Red dam is one of several sisters we have working in the herd. Her first calf was a fancy Flash son that was purchased at last year's sale by Ashworth Farm & Ranch for \$22,000. A lot of promise here, this Black Cadillac is a good one and is sure to draw a lot of attention on sale day. Homo polled by pedigree. ~ **Homo Polled ~ Hetero Black ~**

This is the second good calf for this excellent uddered American Red daughter. American Red has been a good sire for us and has complimented most every bloodline we have used him on. His daughters are exceptional. A daughter from this dam was purchased at last year's sale by JMR Farms at Goodsoil, Sk. This cross with Connected has worked very well too. Here is a February son that has a lot going for him. Solid black, long bodied, good muscling, big rear quarter and looking pretty mature in this picture at only ten months old. His dam has bred back for an early January calf, so good fertility to add to his list of qualities too. We are confident 216L will sire good calves, he will be a dependable breeder and a herd bull you will be glad you own. ~ **Homo Polled ~ Hetero Black** ~

145L is by no means the largest bull in the sale, but he's one that structurally stands out. Within the moderate frame he expresses, he's long spined, with great depth to his middle. He's a bull that by sale time is going to show his destined potential. His Capacity dam is due with her second calf to our exciting new MRL Battlefield that we purchased this past spring. Rizz King is a favourite out in the pen for his quiet demeanor, which made him extremely difficult to picture. He's full of notable qualities that shouldn't be overlooked. He's fluid on the move, extremely square-made, a desirable hair coat and to top it off a set of feet that are hard to knock. A real neat package here for you to assess. ~ **Homo Polled ~ Homo Black** ~

We will start the full blood section with four Crossroad Lieutenant sons that are all equally impressive. We sold Lieutenant in our 2022 bull sale to Siroski Simmentals and collected semen for in-herd use knowing we needed to inject these genetics back into our herd. Here is Latitude, he has been strutting his stuff since he was little, his qualities were obvious. He is very eye appealing with his dark red colour and check out his well-developed rear quarter and body mass he exhibits. His Outlook dam is incredibly good uddered and she is without a doubt the fanciest looking cow on the farm. Her first calf sold at last year's border city sale to Jeff Dobbie in Ontario. She is due again in early January, if it's a heifer, this one won't be leaving the farm. Here is a bull with a stacked pedigree that adds to his total package. This is a real strong contender to consider if you are on the hunt for strong full blood genetics. ~Diluter Free~

This bull presents with all the qualities we look for when searching for our next herd bull. He is super long spined with a well-rounded heavy muscled rear quarter, has great colour and good disposition too. He was one from our pen of three that competed at the Edam Fall Fair. Another plus is big testicle size too, as do all the Lieutenant sons. His dam has been a very good cow for us, always calved in January, bringing in a good calf every year. Windmill Stock Farm purchased a son at last year's sale, we have a couple daughters working in the herd and K3 Ag from Ituna had purchased another daughter in 2019. Strong genetics on both sides of this future herd sire's pedigree, guarantees to add style, quality and pounds to the calves he sires. ~Diluter Free~

I am sure you will agree, this is quite a bull, he grabs your attention as soon as you walk in the pen with his colour, body mass and eye appealing structure. He is another Lieutenant son with a good disposition, wrap around goggles, a thick hair coat and big scrotal measure too. His mother came up open this year but for the past ten years had been a dependable producer with the ability to feed her calves to their full potential every year. Sons and daughters have been purchased by Crooked Creek Farms, Cattle Creek Crossing, Little Willow Creek Ranch, Rochfort Bridge Colony and Whitewood Ranch and we have a daughter working in the herd. Here is a bull that deserves some serious consideration. ~Diluter Free~

Another very good Lieutenant son that is sure to impress you on sale day, he is naturally quiet and was also a member of the group of three full bloods competing at the Edam Fall Fair. Pictured here at eleven months you can see that his qualities are just going to get better by sale day. His Spartacus dam is one of our best, her last year's stunning bull sold to Strate Lake Side Farm, and other progeny have been purchased by Reid Nichols and Loewen Farms. We have a fancy daughter working in the herd with her first calf selling as Lot 79. Both Mother and daughter are bred for mid-January calves. You can see the consistency these Lieutenant son's exhibit, all with the makings of what a good herd sire should offer, there is no doubt this one will sire tremendous calves too. ~Diluter Free~

This guy's dam was the high selling bred we purchased from Silver Lake Farms at the 2021 Pembina Triangle sale in Manitoba two years ago. Her first calf sold to Millard Farms at last year's sale and her natural calf sells this year as Lot 79. We flushed her for eleven #1 embryos and have four sons for you this year and three fancy heifers in the replacement pen. This bull is one of Cooper's favourites and even named him after his superstar favourite baseball player, the kids have a lot of fun with all these names! Peña has eye popping appeal with his colour, style and natural thickness. Born at only 85 pounds he has adequate performance, stands on a good foundation and moves out well. A complete package here with polled genetics that could make a real difference in the direction your herd is headed. Have a close look at this one. ~Hetero Polled ~Diluter Free~

Here is another stylish polled full fleck bull with attractive colour, good thickness throughout and as you can see he has huge testicles. He is a transplant brother to lots 63 thru 66. Crossroad Pilot is a homo polled bull we raised that adds a different dimension to the genetics in the traditional section of our herd. His donor dam is super thick which really compliments the polled side of his pedigree and his grandam is the mother of the \$155,000 Silver Lake Jackson and \$50,000 Jenner that sold in 2022. A very distinguished pedigree to say the least. Poncho is a good bull that will sire stylish calves, his daughters will be strong producers too, real herd builders. ~Hetero Polled ~Diluter ~

Wow, another good polled Pilot son out of a heifer. Sometimes you don't get a whole lot from a heifer, sure worked to our advantage here. 26L is moderate framed, deep sided and has a really well-developed rear quarter. Great colour, double goggles with added pigment too. His sire and dam's lineage goes back to some super strong producers that built the foundations for the strong cow herd we have today. You can't go wrong selecting this one, he offers a lot of options and will be a strong herd sire for years to come. **~Hetero Polled ~Diluter Free~**

This is a very complete full fleck bull that we have all admired since birth. We purchased his fancy dam for \$29,500 and we are sure pleased with what she brought along with her, he was born unassisted and up sucking in no time. We purchased his dam with the intention of using her as a donor and she has proved that not only can she raise a good calf but she has given us large numbers of quality embryos on multiple flushes. I can't tell you much about Playboy's sire other than he certainly was a stand-out at the Anchor D bull sale and one that we had considered purchasing. As you can see in this early December picture this future herd sire looks exceptional, full of volume and muscling in all the right places. He is structured well has good testicle development and tons of eye appeal. He is our type of bull and we will definitely be putting some of these genetics back into the herd. Playboy will be a real contender on sale day and deserves serious consideration. **~Hetero Polled ~Diluter Free~**

Here is an impressive first calf born to a heifer we purchased at the Western Harvest sale in 2022. He is a big bodied Battle Cry son that has tremendous quality, super stylish with his colour, exceptional length and thickness, huge testicles and good disposition too. His dam is a larger framed cow whose pedigree has generations of greats, top and bottom. She is sired by the \$275,000 Kalibre who was also raised by Beechinors. Good producing cow families in the make-up of this young female, we were also successful collecting embryos from her this past year. High maternal values in this bull's pedigree, this well rounded individual is sure to make his mark with the calves he sires. Lots of potential here. **~Diluter Free~**

We purchased the sire of these next four bulls for his tremendous capacity, extra length of body and natural muscling. These traits are all very obvious in his progeny. Here is a good example of what these sons have to offer. Jack Daniels is a very good bull, super dark red, incredible length of spine, pictured here just over ten months and you can see the muscling developing every time you go into the pen. He was also a member of the group competing at the Edam Fall Fair. His Spartacus sired dam is a super productive cow with strong maternal values and after seeing the quality of this calf it was an easy call to breed her back the same way. This bull is guaranteed to add thickness and pounds to your next set of calves, no guess work here. ~Diluter Free~

A February born Jose Cuervo son that is an equally impressive member of his sire group. My December 2nd picture notes say "massive thickness, good disposition, just a super bull". I would also add early maturing, structured well, large testicles, smooth made and super stylish. He was mothered by a Spartacus dam whose pedigree includes several generations of greats that built the strong foundations for our current cow families. We are happy to have two of her daughters working in the herd and we also bred his dam back to Jose Cuervo for 2024. 212L will inject vigour and growth into the calves he sires. Here is a real money maker and the daughters he sires will be too. ~Diluter Free~

Another super stylish Jose Cuervo son that also profiles so well with his attractive colour, thickness well rounded rear quarter and excellent feet and legs. His super uddered Spartacus dam raised a heifer that sold to Mavv Farms from Okotoks, Ab at the Border city sale in 2022. Joe Diffie was born a twin and the other fella was almost identical. Olivia had not gone back to school in Colorado yet when they were born and these music loving sisters named the other twin "John Cougar", They sure would have looked good together in this bull sale catalogue, but only one survived. But one is better than none and this is one that you need to come and see for yourself. ~Diluter Free~

Here is another Jose Cuervo son and he is a big, powerful, thick as they come. His dam is one of our donor cows and this is her natural calf. She is also the dam of transplant brother's lots 63 thru 66. They are an excellent group of sons and you can read those lots to find out a little more info on her. We like her a lot and will flush her again this spring. Just so you know he has more white up his other back leg than on his picture side but that certainly won't affect the scale when you weigh up those big soggy calves in the fall. A lot of qualities here that will give you a quick return on your investment. ~Diluter Free~

Here is another good Batman son that is certainly going to mature into an impressive herd bull in a very short time. His Reputation mother did a real good job for her first try. Excellent body types and testicle size on all these moderate birth weight Batman sons and the daughters we are calving have superior udder quality too. Stylish with good colour and plenty of thickness are just some of the physical attributes this bull has to offer. ~ **Diluter Free~**

The youngest bull in the sale and you would never know that in this picture he is just nine months old, he is going to be quite a bull when he matures. More than adequate muscle, good feet and legs, great hair coat with one goggle is what you will see on sale day. His dam did a good job with her first calf and is due in mid-January to Brooks Brigade who is a polled bull we purchased last spring to add to our herd bull battery. She comes from a very strong cow family that have raised some of our best. Here is a young bull with a ton of quality that deserves to be included in our sale offering. He is sure to impress you on sale day. ~Diluter Free~

Only one Radio Active son for you this year and he certainly has enough thickness and herd bull look to appeal to many. He comes from a very good cow family and was mothered by a Blueprint female that raised a daughter for Twin Heritage Farms from Sheho, Sk. A son was also selected by Southridge Stock Farm from Vermilion, Ab. Some very obvious qualities for you to assess on sale day, a bull that will add some vigor and growth into the calves he sires. ~Diluter Free~

Open Replacement HEIFERS

This year we are pleased to offer you 14 solid open replacement females allowing you to expand your herd with some new and interesting genetics, just in time for breeding season. We have tried to select something for everyone and offer a good representation of our herd. They all come from consistent producing bloodlines with the same sires that in our bull section allowing you to see the strength and potential of their genetics. Reds, Blacks or Full bloods they are all very strong and have a ton of potential to raise quality off spring for their new owners. We are proud that some of the females we have sold at previous sales have gone on to produce high selling progeny for their new owners. Give us a call if you have any questions, we would be glad to through them with you. Come anytime to view our offering prior to the sale, we always look forward to your visits.

A definite powerhouse to kick off the heifers. Crossroad Limbo displays a dense blood-red hair coat, sporting a large frame with plenty of depth throughout. She's sired by the Cinderella Man bull who has been a pronounced producer for us. We have a handful of Cinderella Man sired sons in the sale that excel with their structural attributes. Her dam has an excellent disposition, great rib shape, and a deep side. The cross between the two proved to be a good decision. 109L carries above-average growth in her EPD's and there is no doubt she will bring home a good calf in the fall. **~Homo Polled~**

We love the potential this one has, extremely feminine, fine-boned, and has tons of hair. The Crossroad Connected daughters have been prominent producers in our program, dropping ideal udders with dependable feet. This heifer's dam is a transplant Riddler female out of our old Ursula cow. That old girl was here for a long time and raised some of our very best. This heifer comes from a super strong cow family with consistency that you can depend on, have a close look, she would be a good addition to any herd. ~Hetero Polled~

We have a couple of exciting Sysco daughters to share with you this year. We are very impressed with all the Sysco sons and we can see his good features are being passed on to the Sysco daughters offspring too. This one is without a doubt "a bull maker". We purchased her transplant Subaru dam from Westgold Simmentals and she has been a very productive female always bringing home a good calf. Laverne weaned at 900 pounds on September 15. We can see the consistent Sysco features as this heifer develops. Extreme thickness, a solid set of four, and that deep red colour. She's one with immense power, but still appealing with the crisp blaze and up headed appearance. ~Hetero Polled~

A fancy moderate framed Sysco daughter that is very angular and fine made for some added femininity. She exhibits a docile temperament, cherry red haircoat, and great composure. Her mother produced a top-end bull that was purchased in 2023 by C Spring Farming from MaGrath, Ab. and we have a very good daughter working in the herd. Her dam is due again in January and we would expect her daughter will carry on with that same good fertility. Here is one that will raise the right kind and pay for herself many times over. **~Homo Polled~**

We were really on the fence trying to decide if we would part with this one, we know she will make a really good cow. Her dam is a super fancy black that we admire for her depth of body and picture-perfect udder. She is due again in January, we have high hopes for another female. 18L's IPU Top Tier sire has been heavily used in the heifer pen. He is extremely deep-sided and full of natural muscle. We see that same thickness in all the calves he sires. We are confident this thick moderate framed heifer will be a real producer full of longevity, leaving good quality sons and daughters you can build a herd with. **~Homo Polled~**

Crossroad Lizbit is a compact female but has extreme depth and an ideal sweep to her rib cage. She was sired by WLB Top Tier which is used widely by breeders on heifers with great success. Her dam is a nicely uddered Rattler daughter and her grandam raised some very good sons and daughters for us. 51L is one you can't underestimate for her size, analyzing her pedigree will guarantee that she puts her all into her progeny. The super stylish white facial markings, strong topline, and natural thickness from head to tail make for a strong-producing female. ~Hetero Polled~

When you analyze this pedigree, you would need to use both hands to count all of the high-selling, big-time producing greats that are in it. We purchased her dam is from our good friends in Quebec, her first son sold at last year's sale to Aiken Farm and Ranch in Canwood. Her sire was raised here on the farm and has proven his place with ease. Great colour, plenty of style in a polled, full fleck package that will mature into one of your best. **~Hetero Polled ~Diluter Free~**

Terms & Conditions

TERMS – The terms of the sale are cash or cheque payable at par at sale location unless satisfactory credit arrangements have been made prior to the sale. The right of property shall not pass until after settlement is made.

Crossroad Farms reserves the right to require a certified cheque as settlement before releasing any sale cattle. Should the purchaser fail to settle for his purchase Crossroad Farms reserve full power to resell the animal to the best advantage either publicly or privately, without further notice. Any loss arising from such resale together with keep and all other expenses shall be payable by the defaulter. All settlements must be made with the clerks of the sale before any cattle will be released. Crossroad Farms and sales staff has the right to refuse bids from anyone who has a previous record of default in payment and who has not made prior credit arrangements, prior to the sale with Crossroad Farms.

BID – Every animal consigned to the sale must be sold by auction. No by bidding will be permitted. Each animal will be sold to the highest bidder.

DISPUTES – In case of disputes, bidding will be reopened between the parties involved. If no further bid is made the buyer will be the person from whom the auctioneer accepted the last bid. The auctioneer's decision in such matters will be final.

PURCHASER'S RISK – Each animal becomes the risk of the purchaser as soon as sold.

ANNOUNCEMENTS from the auction block will take precedence over printed matter in the catalogue. Buyers are therefore cautioned to pay attention to any such announcements.

CERTIFICATE OF REGISTRY – The proper Registration or Recordation paper, as the case may be, will be duly transferred and furnished to the buyer for each animal after the settlement has been made.

SHIPPING – Assistance will be given in making shipment after the sale but no risk is assumed by the Seller. Purchasers are requested to furnish shipping instructions when making settlement.

GUARANTEE – All animals will carry standard breeding guarantee as specified by the Canadian Simmental Association. At no time shall the seller's liability exceed the purchased price of the animal.

EXCEPTION TO GUARANTEE – In cases where the animal is subjected to any hormonal or surgical reproduction techniques after the sale, the guarantee shall be null and void. In the cases of bulls, they are guaranteed to breed naturally according to the Canadian Simmental Association Guarantee but no guarantee is given that semen from any bull will freeze.

HEALTH – All animals will have passed the required tests as determined by Agriculture Canada at sale location. It is the buyer's responsibility to determine health requirements for importing any animal into his province or state.

ACCIDENTS – Although every precaution will be taken to protect the safety and comfort of buyers, neither Crossroad Farms or any Sales Staff or Association assumes any responsibility in this matter and disclaims any liability legal or otherwise in the event of accident or loss of property.

RIGHTS AND OBLIGATIONS – The above terms and conditions of the sale shall constitute a contract between the buyer and the seller and be equally binding to both. Resale of animals following purchase in this sale shall constitute a separate transaction and the rights and obligations of the two parties connected thereto are not covered by the terms and conditions of this sale.

PICTURES – By attending our sale you are giving your consent for your picture to be taken and used for promotional or advertising purposes only of Crossroad Farms. If you wish to not have your picture used please advise us in writing immediately after the sale.
