

# 10th Annual Bull & Female Sale

**Wednesday, February 24, 2016 at 1:00 p.m. CST**  
**Crossroad Farms Sale Barn, Shell Lake, SK.**

# WELCOME from Crossroad Farms

We warmly extend an invitation for you to attend our 10th annual bull & female sale. Thank you to all the bidders, buyers and repeat customers from our past sales. Whether you live local or have traveled a long distance, we truly appreciate you taking time to attend and look forward to assisting you with your future bull needs. Feel free to stop by the farm anytime, we are always available. Tell us about your program and we will try to help you make a choice that will work best for you.

Simmental genetics have so much to offer, superior maternal traits and performance to produce heavy weight steers and top end heifers to fill the demand for replacement females. Choosing a herd bull is one of the most important choices a cattleman has to make. A good bull will pay for himself when you sell his first set of calves. A poor bull, and especially if you keep your replacements, will cost you for years. It really pays to buy the best genetics you can.

Our sale offering is strong with a very good selection from calving ease to performance. The exciting Quebec bulls, Spartacus & Bolero sons are stirring up a lot of interest. Crossroad Black Bolt and Vintage are bulls we raised that also have excellent sons on offer. The Paparazzi and All In sons that were so popular at last year's sales are back and the exciting new Revelstock, LWC Hemi and Scout sons will also make their debut for 2016. Several AI sires were also utilized to offer you the very best selection possible. We are also pleased to offer a good representation of our herd in the heifer section allowing you to expand your herd with some interesting genetics and just in time for breeding season.

If there is a bull you are interested in but are unable to attend the sale, just let us know and we can assist you in bidding or contact anyone of the capable sales staff to bid on your behalf.

We look forward to seeing you on Wednesday February 24th. Come early and enjoy a home cooked meal and some Crossroad hospitality.

Spartacus... raised by our good friend Philippe Belevance at Ferme Sibelle and a bull that has been talked about since he was loaded on the truck in Quebec headed for Saskatchewan. A lot of interest from summer visitors in this sire group. At our December Source sale, Mark Land & Cattle from Irma, Alberta paid \$13,000 for a fancy Spartacus heifer calf. Thank you Leonard! And the Spartacus excitement continues, as his first sons develop and will be featured at our 10th annual bull sale. They are the most impressive sire group of fullbloods we have ever produced, thick muscled, deep bodied, a "must see" on your hunt for new fullblood genetics. We are offering ten sons, all pictured in early November and you can see the natural muscle expression they all exhibit at this early age.

We decided to start with the impressive full fleck Swagger. He is long bodied, moderate framed, loose hided and well balanced in structure. He has been admired by many visitors throughout the year. His mother is a super productive good uddered cow who has developed into one of our elite. Sons and daughters have been purchased by Tyler's at Red Willow Ranch, Kulyk Simmentals, Black Gold and Vegreville Colony. High fertility in this bloodline, her last flush produced seventeen number one embryos that will leave us daughters to maintain a good foundation for the future here at Crossroads. We are certainly pleased to pass these genetics on to you. Swagger will be one of the bulls we will collect for in herd use, we will definitely be putting some of these genetics back into our herd. Give this bull some serious consideration; he is one of a kind!

While visiting with Blaine from Little Willow Creek who are co-owners of Spartacus, we both agreed how easy these calves are born and how fast they grow, very impressive! A super big hip and wide top on this stylish full fleck Spartacus son. Great colour and hair, awesome temperament and big testicles are also qualities this bull has to offer. His stunning dam is due any day again to Spartacus. She has placed two daughters in the herd and a high selling third purchased at the 2014 Source sale by Ferme Gagnon in Quebec. His grandam is thirteen, has given us eleven excellent calves, is due early January and still has the most perfect udder. Some undeniable qualities in this young herdsire!

Another feature Spartacus son, full of style and a ton of potential. His dam is sired by a bull we raised and own together with our long- time customer and friend Wayne Jessop. This Homegrown bull comes from a long line of great uddered females, his grandam is a 03 model and this evening she just had another Spartacus bull calf. Subaru's dam has a perfect udder, in fact Subaru's whole pedigree is stacked full of proven bloodlines that have produced the best year after year. Subaru's dam is due to Spartacus for a mid- January calf and we are sure hoping for a female. Subaru has it all, early maturing, natural thickness, he weaned off in early September at a strong 920 lbs. A real meat machine that is also deep dark red with pigment throughout and has big testicles. He will be quite a looker when he matures! We sure like him and hope you do too, Subaru will be one of the bulls we will collect for in herd use, you just don't find his kind every day and he definitely deserves serious consideration.

Spartacus out of a Cornerstone dam, what a combination! Incredible great uddered mother and grandmother at age ten and not showing any sign of slowing down. Sparks is a very good bodied bull with thickness throughout and check out that rear quarter! You will drive many miles to find one like him. Expect high weaning weights and major maternal strengths, so keep back as many replacements as you can.

Stonewall is a very complete full fleck bull who is dark red in colour and has loads of hair. Again you can see the natural Spartacus muscle developing when this bull was pictured at only nine and a half months of age. Very good testicle development on all these Spartacus sons too. Stonewall was raised by a powerful Sinatra daughter, Crossroad Sinatra was a bull purchased by Doug Marjoram and Windmill Stock Farm, and we sure wish we would have used him more. This cow gets the job done every year. She has placed two exceptional daughters in the herd another was selected by KSL Simmentals at Beaverlodge, Alberta and a son was purchased by Southridge Stock Farm at Vermilion. Stonewall will sire females you won't want to part with, they will all be growthy, well-muscled calves that will add value to your calf crop.

Another good Spartacus son with natural fleshing ability that is efficient and low maintenance. His dam is deep and broody and we really appreciate the udder quality on all of our BHR Baron females. They are

powerful and can really raise a calf! Two of her daughters are working in the herd; another was selected by Double G Farms at Meota and a son purchased by Peace View colony at Farmington, B.C. Here is a bull that will raise you some heavy weight calves and leave you some tremendous replacement females.

This bull will not have trouble finding a home on sale day. Another typical made Spartacus son, extremely thick, and very long bodied, full of meat and muscle and really moves out well. Solution's mother has top end genetics with Cornerstone and Rusty in her pedigree. This fall Dry Creek Simmentals from Loon Lake selected her daughter to add to their herd. Lucky for me another Spartacus heifer calf was born yesterday and this one stays in Laurie's pasture! Here is a bull that will go on to make some superior females and some very powerful, very marketable steers.

This is our first set of Bolero calves and we are truly impressed. We imported him from our good friend Phillipe Belevance from Quebec. Jackie and I had the opportunity to take a quick trip out to Quebec to take part in Phillipe, Sebastien and Marc's first female sale. We got to see some mothers and other progeny on a quick tour of the farm. The cattle looked very impressive as well as the Quebec landscape. Definitely will be planning on returning to have a longer visit with our Quebec friends soon. Although Spartacus and Bolero have the same sire, our Bolero's are a bigger frame score. He puts extreme length into his progeny meaning more pounds and more dollars. Brewster is a larger framed bull, is super footed, has exceptional colour and very good temperament. You will like him!!

We really like the sire of Ventura, he is the high selling Crossroad Vintage bull that Wolfe's Fleckvieh and Clearwater Simmentals purchased at our 7th Annual sale. He is sired by Solway Adonis and mothered by Evan, which we felt is a real good combo and it would be worth our time to invest in this bloodline knowing we could get some super producing females. And here we are with the next generation, introducing you to our Full Fleck POLLED Crossroad Ventura, son of Vintage, looking good pictured here at ten months of age. He has great colour, thickness and style and also has a naturally quiet disposition and excellent testicle development. His Polled Tuxedo dam produced a high selling heifer that sold at last year's bull sale to Ockerman Simmentals at Lindbergh, Alberta, and last night a full sibling to Ventura was born, Laurie has her heifer! Many proven bloodlines here and a real complete package for you to assess. Ventura will also be one of the bulls we will collect for in herd use.

Crossroad Radium, where do you start? He has been such a consistent producer, not only for us, but for fellow breeders and there are some very impressive mature Radium sons walking in our customers pastures too. Born to a heifer, Revenue has the good qualities that we all look for and of course that Radium style, style, style! Revenue is a Full Fleck that has a lot of power from his Romano /Jahari dam's side. Revenue has great performance and will sire excellent calves and leave you females that will bring home big returns every fall.

76 pounds at birth and look at him now! This heifer was an awesome mother and certainly earned her keep on her first try! Long bodied, with good muscling, solid pattern with extra

pigment. Very strong bloodlines in this Full Fleck bull. Out of the stylish Radium along with the strengths of Bradock and the power from the Jahari cow that we own together with our good friends, Mark, Philippe and Sebastien from Quebec. This is definitely a winning combination of genetics and we are confident you will be pleased with Rockafella's performance.

One of Gerald's favorites, here is a stylish Full Fleck Radium son with a very good body type and an extremely thick hair coat. He is thick, has good testicle development, has a solid structure and moves out well on a big foot. Recon is out of a first calf heifer, one of those good uddered powerful BHR Baron daughters that we like so much. She is getting ready to raise her next baby due in mid- January. Here is a real good Radium son for you to consider, can you imagine this hair coat on your next set of calves!!!

If you are looking for a bull with lots of length, here he is, your search is over! Dark red, wide top with a ton of performance, wrap around goggles, naturally quiet disposition and big testicles. He looks very much like his stunning sire. He was mothered by our Appollo/Rusty cow that has raised seven January born calves and her eighth is of course also due in January. Her only daughter born is working in the herd and sons have been purchased by Gerard & Geoff Regnier, Southridge StockFarm, Belle Plaine Colony, Blushrose Simmentals and Granum Colony. If you are looking for a power bull that will increase you weaning weights and add fertility to your females, Lightning is definitely the bull for you.

Another Hemi son that has good performance. Pictured here at nine and a half months of age shows a good rear quarter, excellent testicle development, awesome colour and style. The LWC Hemi herdsire was purchased a couple years ago at the Source sale from the good people at Little Willow Creek. He has really matured into an impressive herdsire and we are sure pleased with his calves. His mother is a Metro/ Houston combo that is very strong on the maternal end. Her first calf sold as a bred at the 2015 Source to Tom Knudsen family from Fort Kent, Alberta. Excellent traits are what this bull will pass on to his calves.

I really admire this calf for his rib shape, depth of body and his superb hip structure. Lariat is definitely a complete package; dark red, big goggles, excellent colour and super hair. He has a super momma cow that's been producing strongly since 2004 with some of the great ones in her pedigree including the Bar 15 Shiloh cow that had done everything 110% here at Crossroads and she had an unbelievable record at Bar 15 as well. Sons have sold to Riverbend Farms, Double RN and our good neighbours at Strate Lakeside Farm.

CROSSROAD MACY 34M

LWC Hemi stamps his calves very consistently in colour, shape and size. Liberty exhibits superior length and has a nicely made squared hip. Really have to admire the deep red colour he will pass on to his progeny. His mother has produced some of our best progeny to date. Most recently our lead off Ranger heifer at the Source sale being sold to Westgold for \$15,000 and a couple of bulls going to Diesen Farms and the other one "Cannonball" going to Windmill Stockfarms who states that these were some of the most consistent calves he has ever produced. As a breeder it is very nice to see and hear results like this.

Very stunning profile on this mid- February born bull, super dark red colour with wrap around goggles, good thickness and testicle size all in a very complete package pictured at 9 months of age. Knockout's pedigree is layered with generations of some of the industry's best. This will be the last group of bulls offered from our dark red Appollo/Impact herdsire as he now walks the pastures at Kulyk Simmentals. We have an extremely good daughter working in the herd from Knockout's powerful dam and she has also produced progeny for Double G Farms, Dieker Enterprises, Cleardale Colony and Crystal Springs Colony. Some real consistency here.

WLSF PEGNER

A bull that will have some definite interest come sale day. A little different pedigree here, combining some very strong bloodlines. Jody purchased these high priced embryos from Double Bar D at a hotly contested auction. The Nickelback bull looks awesome. We have not seen the Pegsley cow, but anyone that has, says she is absolutely awesome! Quarterback is super stout and possibly one of the strongest topped bulls in the pen. Rugged in make-up, this guy just looks like a herd bull ready to go out and get the job done. Serious consideration in evaluating this bull could spell huge returns. We have high expectations and will be using Quarterback to infuse some of the outcross genetics in our AI program.

BW: 103 lbs. 205 Day adj. Wt: 785 lbs. 365 Day adj. Wt: 1364 lbs.

Here's one that is going to raise you some powerful calves that will feed out and have some serious pounds on those carcasses. His Knight Mr. T sire is so well known for making good females, we've had several over the years and they are awesome producers! And on the dam's side we have Rusty the "cow maker", 809G and Bruno/Mitzi – a truly powerful pedigree. I truly believe if this bull was solid coloured he would be worth his weight in gold.

BW: 103 lbs. 205 Day adj. Wt: 812 lbs. 365 Day adj. Wt: 1369 lbs.

A super stylish end of February born full fleck bull that looks very much like his Unlimited sire. Upperclass has a ton of hair, great colour and plenty of thickness that you wouldn't expect from a young bull. Really good rear quarter and large testicle size along with a good disposition on this young fella. His mother has THE most perfect udder. Wish we had more of these Homegrown females. He may be young but he is mighty and would be a good addition to add to your bull pen.

BW: 98 lbs. 205 Day adj. Wt: 801 lbs. 365 Day adj. Wt: 1441 lbs.

Full brother to Crossroad Black Bolt that sold at our 8th annual sale to Labatte Simmentals and WJ Simmentals. We were sure hoping for a heifer from this mating. Jolt is her 10th calf and her 11th is due, like all the rest, in January. Last year she had twin bulls that both sold in the sale, one went to Rock Lake Colony and the other to Derek Allan at Davidson. Other sons have been sold at our sales over the years and her very first daughter born is still producing at Mader Ranches. Definite longevity in this bloodline! I will need more paper if I have to list all the high selling progeny that our impressive ALL IN has sired. Six sons and a daughter will be offered in our sale this year.

You can see by Black Jolt's picture that he has all the makings of a quality bull and if you are looking for black, this would be an excellent choice, stylish with a ton of power, good disposition and unquestionable maternal strengths. A real complete package here.

# 45

You really have to appreciate the overall thickness and power the All In bull puts into his progeny, he stamps them all very consistently. We sold an extremely powerful All In heifer calf to Sunny Valley Simmentals at the December Source sale for \$10,000, we know she will have a good future at the Libke farm. Blackline is one of our favourite black bulls this year. He is a very thick, well balanced and attractive made individual. He is very clean fronted, solid footed and moves exceptionally well. It's no surprise that his dam is bred the same way again. Her last year's good bull sold to Kerby McMann at Cold Lake and another son was purchased by Malchuk's in Manitoba. Here is Blackline, he's a bull that will definitely catch your eye on sale day!

CMS LADY GAGA 21X

LFE BS LEWIS 322U  
D: CROSSROAD YODINA 352Y  
CROSSROAD WISEGAL 54W

Dark red as you can make 'em, adequate muscling, super quiet and enough performance considering he got separated from his mother during the early summer and was on a diet of grasshoppers and a few blades of grass until the rains came. Certainly did not hurt him, he will be a real stand out on sale day. His Stubby dam raised an awesome high selling heifer calf that sold at the 2014 Source sale to Outlaw Cattle Co. at Hussar, Alberta. A really good combination of genetics here, Powerhouse will sire an impressive set of calves.

So dark in colour that he has shades of black in his hair. Another terrific Paparazzi son here that will attract some attention on sale day. Partner is a power bull whose calves will push that scale down having tremendous length and power over the top and a super attractive side profile to them. It is hard to fault these types of bull. Eleven Paparazzi sons averaged \$10,900 in last year's sale.

BW: 102 lbs. 205 Day adj. Wt: 811 lbs. 365 Day adj. Wt: 1374 lbs.

We can't say enough good things about the Paparazzi progeny. His bulls were a huge hit at our sale last year and every Paparazzi female we have taken to town has brought top dollars too! We were out touring the bull pens yesterday and saw that this Prowler bull is really coming on. He is super deep, rich in colour and as stout as they come. Great disposition too! The boys at Greenleaf colony bought a maternal half-brother to this guy last year.

Check out this excellent dark red blaze faced bull. He has a wide top, great side profile, good hair, large testicles and is nice and quiet. Degree is a bull we raised and WOW, are we pleased with his calves! Denton from Rafter 4-T at Hairy Hill, Alberta selected a fancy Degree heifer calf from the pasture this summer. Destroyer's mother is a transplant full fleck cow and her first calf sold at last year's bull sale to Sunset Simmentals at Edgerton, Alberta for \$17,250...can't wait to see those calves! Destroyer has a lot going for him and we are confident he will sire an impressive set of calves.

BW: 94 lbs. 205 Day adj. Wt: 833 lbs. 365 Day adj. Wt: 1427 lbs.

We are certainly pleased with the calves our Homo polled Esposito herdsire is producing. Females are very feminine with attractive front ends, good colour, hair and body type and their udder quality is excellent. Our high seller at the Source sale in December was an Esposito daughter for \$18,000 to the Trabysh family at Hairy Hill Cattle Company. Many other high priced sons and daughters have been sold over the last few years. This past summer Esposito was purchased by the good people at Rafter 4-T where he will also be making a big impact on their herd as he did on ours. Here is El Camino, pictured at ten months of age, deep sided, full of volume, excellent rear quarter and good hair; lots of performance here! His Newsmaker mother has some fleck influence giving him a little bit of white swirl on his face. He will mature into a big bodied bull and will sire some outstanding early maturing calves.

Trail Boss is another typical Scout calf. Moderate in size, super thick and that tremendous middle and rib shape that Scout seems to stamp on all of his calves. Trail Boss is

a red baldie out of a red white faced heifer, and in a very short time we feel she will rise to the top of our program. She goes back to the great producing Nightmist 43N cow that raised one of our first Red Dynamite 3P sons that sold to Andy at Spring Creek colony. Andy still talks about how great this bull is and what a job he has done there, really nice to see results and track lineage like this.

Might be the Scout son with the thickest hair coat but like all the rest, a really good thick, deep bodied bull that will add value to your herd. I must tell you about the mother of Scout. She is a beauty with the most incredible udder. We liked her so much we bought another son, this one sired by Super Duty, watch for his sons at next year's 11th annual Crossroad Bull sale. You are all invited!!!

# OPEN HEIFERS

We have chosen 13 open replacement heifers for the sale this year, 2 blacks, 5 fullbloods and 6 reds. They are as good as you will find anywhere and we are confident they will be productive females for their new owners. We are proud of what some of the females we have sold at previous sales have done for their new owners. Several have gone on to produce high selling progeny. The heifers are available for viewing any time prior to the sale. We always look forward to your visits.

 LPN MS ROCKET 548P

A very attractive made, extremely deep bodied All In heifer. You will be proud to show off this one, she's a real Charm! This is the second set of calves the All In females are feeding and their udder quality is very good. Mothered by a really good Gunner cow that has produced some excellent bulls. A Stubby son was selected by Cockburn's and another out of Titan went to Proulx Bros. If this heifer turns out anything like her mother, she will be a dandy.

CROSSROAD TINSEL 29S

Cowboy Cut is an AI sire we sampled and we are sure pleased with the results. Here is a very impressive female, deep bodied and as thick as they come yet clean and refined from her head down thru her front end. She is out of a Black Trademark female that has raised progeny for Tri-K Cattle from Beaver Lodge, a good bull went to Marcel and Eunice Proulx and at last year's bull sale another good son was chosen by Mixburn colony. A very attractive heifer, we feel she will grow into one of the elite. A tremendous future lies ahead for Crossroad Cow Girl and her new owner!

This fullblood heifer will take your breath away when you see her. She is very good. Look at this hair coat! So deep and thick with tremendous volume and a stunning profile, she's one of the old guy's favourites. Her mother has raised bulls for several good customers and at the 2014 Source sale her Barcelona heifer calf was purchased by Barry Labatte for \$13,000. Cassandra is going to raise bulls, good bulls. Quick return on your investment here!

Another good LWC Hemi daughter. She is a very solid made, long bodied blaze faced heifer. The sire of her dam is SFM 3P, we have sold many good 3P sons and daughters over the years, he has made a huge contribution to our cow herd. Lots of longevity in this heifer's pedigree. Calista will go on to being a really good bull producer.

Really have to appreciate this red baldy heifer. Super hair, nice lines, well balanced from front to back. Her mother has raised bulls for Leo Millard, Marty Lay and last year's son was purchased by MC Ranch at Cold Lake. She is also the grandam of the Lot 96 heifer. Paparazzi females are some of our best, don't miss out on this good one.

TERMS – The terms of the sale are cash or cheque payable at par at sale location unless satisfactory credit arrangements have been made prior to the sale. The right of property shall not pass until after settlement is made. Crossroad Farms reserves the right to require a certified cheque as settlement before releasing any sale cattle. Should the purchaser fail to settle for his purchase Crossroad Farms reserve full power to resell the animal to the best advantage either publicly or privately, without further notice. Any loss arising from such resale together with keep and all other expenses shall be payable by the defaulter. All settlements must be made with the clerks of the sale before any cattle will be released. Crossroad Farms and sales staff has the right to refuse bids from anyone who has a previous record of default in payment and who has not made prior credit arrangements, prior to the sale with Crossroad Farms.

BID-Every animal consigned to the sale must be sold by auction. No by bidding will be permitted. Each animal will be sold to the highest bidder. DISPUTES- In case of disputes, bidding will be reopened between the parties involved. If no further bid is made the buyer will be the person from whom the auctioneer accepted the last bid. The auctioneer's decision in such matters will be final.

PURCHASER'S RISK- Each animal becomes the risk of the purchaser as soon as sold.

ANNOUNCEMENTS from the auction block will take precedence over printed matter in the catalogue. Buyers are therefore cautioned to pay attention to any such announcements.

CERTIFICATE OF REGISTRY- The proper Registration or Recordation paper, as the case may be, will be duly transferred and furnished to the buyer for each animal after the settlement has been made.

SHIPPING- Assistance will be given in making shipment after the sale but

no risk is assumed by the Seller. Purchasers are requested to furnish shipping instructions when making settlement.

GUARANTEE- All animals will carry standard breeding guarantee as specified by the Canadian Simmental Association. At no time shall the seller's liability exceed the purchased price of the animal.

EXCEPTION TO GUARANTEE – In cases where the animal is subjected to any hormonal or surgical reproduction techniques after the sale, the guarantee shall be null and void. In the cases of bulls, they are guaranteed to breed naturally according to the Canadian Simmental Association Guarantee but no guarantee is given that semen from any bull will freeze. HEALTH – All animals will have passed the required tests as determined by Agriculture Canada at sale location. It is the buyer's responsibility to determine health requirements for importing any animal into his province or state.

ACCIDENTS- Although every precaution will be taken to protect the safety and comfort of buyers, neither Crossroad Farms or any Sales Staff or Association assumes any responsibility in this matter and disclaims any liability legal or otherwise in the event of accident or loss of property. RIGHTS AND OBLIGATIONS – The above terms and conditions of the sale shall constitute a contract between the buyer and the seller and be equally binding to both. Resale of animals following purchase in this sale shall constitute a separate transaction and the rights and obligations of the two parties connected thereto are not covered by the terms and conditions of this sale.

PICTURES- By attending are sale you are giving your consent for your picture to be taken and used for promotional or advertising purposes only of Crossroad Farms. If you wish to not have your picture used please advise us in writing immediately after the sale.

# THANK YOU FOR 10 YEARS...

In 2006 we made the decision to hold our own bull sale on the farm and the next 10 years have flown by. As we look back through all the photos we cannot help but feel overwhelmed about the support we have received. Our family shares a passion for cattle and we feel very privileged to get to work side by side to create and operate "Crossroad Farms".

Our bull sale is such an important annual event in our lives. It gives us an opportunity to connect with our customers and provide some Crossroad hospitality. It also gives us the chance to spend time with our friends, family and neighbours as we have a great group that come back each year to help us put on this event. It is a lot of work but is also a lot of fun to have each one of you as an integral part of our day. Many thanks to each and every one of you!!!

We would also like to thank everyone that has been a part of our sales staff and to Claude and his crew that come each year making those bulls look their best.

## THANK YOU FOR 10 YEARS...

We would also like to extend a heartfelt thank you to all of our customers that have supported our business over the years. There is no other place we would rather be than visiting in the bull pen and talking cattle. We value the many friendships we have made through our business.

Return undeliverable covers to:

**CROSSROAD FARMS**  
**BOX 321,**  
**SHELL LAKE, SASK.**  
**SOJ 2G0**

Thank-you to the cattle folks that let us know they have retired and no longer need a catalogue.

## Thank You to Our 2015 BULL & FEMALE SALE BUYERS
